### King Sized Controversy:

#### Evaluating the extent of David's kingdom

The extent of the kingdom of Judah has been in the limelight since the discovery of Khirbet Qeiyafa in the Elah Valley in Israel in 2007. Archaeologists at this site have proclaimed that it

is directly linked to David's kingdom and that it proves the strength and size of Judah in the Iron Age. This lecture will examine the archaeological record of the Kingdom of Judah in the 10th century BCE and introduce theories that challenge the strength and size of David's kingdom in this period.

Date: Thursday, March 12, 2020

Time: 7:15 - 8:15 p.m.

**LOCATION:** University of Toronto, Carr Hall, Room 404, located at 100 St. Joseph Street, St. Michael's College at the University of Toronto. (First street north of Wellesley; parking lot is opposite Carr Hall).

All lectures are open to the public and free of charge. [sites.utoronto.ca/cims](https://sites.utoronto.ca/cims)
