CIHR Strategic Research and Training

**Interdisciplinary Capacity Enhancement Team  
Request for Support for Proposal Development**

**The objectives of the HCTP "ICE" grant are to nurture:**

- (a) *scientific achievement* by equipping researchers from diverse disciplines to generate methods, concepts, and theories for understanding and strengthening the new networks of contemporary health care;
- (b) *research capacity enhancement* by positioning HCTP researchers to compete successfully for research funding and by creating collaborative research opportunities for investigators new to the health research community;
- (c) *multi-sectoral knowledge translation* by involving decision-makers from industry, government, and health care agencies in research and training processes
- (d) *interdisciplinary and inter-institutional mentorship and networking* through linkages with the HCTP Strategic Training Program.

**Information and Instructions:**

To function as a nimble and dynamic research catalyst, the HCTP Request for Support process must be swift and non-burdensome for researchers, while remaining objective and accountable.

1. Average support allocations are anticipated to be \$2500.00 per proposal. Maximum support provided to a single proposal will be \$4500.00. An itemized budget is required for all Requests.
2. Requests will be reviewed by HCTP Co-Directors throughout the year. There is no deadline for submission, and requests generated outside the October 2003 workshop are eligible. Normally requests will be reviewed within 5-10 days of receipt, with results conveyed by email.
3. HCTP-supported proposals must address one or more HCTP ICE themes (for details, consult the ICE grant proposal):
  - Human Bodies in the New Health Care/Improving Quality
  - Health Care Places/Public Advice Seeking in an Era of eHealth
  - Technologies in the New Health Care/ Evaluation & Technology
  - New Health Care Work/Health Human Resources
4. HCTP-supported grant proposals must be developed collaboratively by interdisciplinary teams. Doctoral and Post-Doctoral Fellows may participate on HCTP grant writing teams.
5. HCTP should be acknowledged in supported proposals and funded research as follows:
  - Development of this proposal/research was supported by "Health Care, Technology, and Place: An Interdisciplinary Capacity Enhancement Team grant" from the Institute of Health Services and Policy Research, CIHR.
6. Funding results for HCTP-supported proposals must be reported for program evaluation purposes.
7. HCTP-supported proposals normally will be described at [www.hctp.utoronto.ca](http://www.hctp.utoronto.ca).
8. To request HCTP Proposal Development Support, complete the attached form. Submit 2 copies to:
  - HCTP - Interdisciplinary Capacity Enhancement Team
  - 50 St. George Street, Toronto, Ontario, M5S 3H4
  - Fax: 416-946-5960/email: [hctp.program@utoronto.ca](mailto:hctp.program@utoronto.ca)
9. For more information contact: Kelly Murphy (416) 946.5958/ [k.murphy@utoronto.ca](mailto:k.murphy@utoronto.ca)
