

Home and Community Care Highlights

A digest produced quarterly at the University of Toronto
by the CHSRF/CIHR Health Services Chair in
Health Care Settings and Canadians

Volume 7, Number 3: September 2008

In this issue:

- Private and Public Expenditures for Home Care: Substitute or Compliment?
- Home-Based Medication Review in Recently Discharged Elderly Patients: An Economic Evaluation
- Access to Continuity of Primary Care Reduces Seniors' Utilization of Emergency Department Services
- Patient and Surgeon Views on Maximum Acceptable Waiting Times
- Optimizing Palliative Care for Children: Barriers Perceived by Health Care Providers
- The Impact of Cost-Effectiveness Studies on Policy Decision Making: A Case Study of Newborn Screening Using for Inherited Metabolic Disorders
- Support for Using Existing Adult Figures as Mentors for Youth in Foster Care
- Should a HPV Vaccine be Added to a Cervical Cancer Screening Program? Cost-effective Evidence from France

Support for Using Existing Adult Figures as Mentors for Youth in Foster Care	3	10
Should a HPV Vaccine be Added to a Cervical Cancer Screening Program? Cost-effective Evidence from France	3	11

About Home and Community Care Highlights:

Home and Community Care Highlights responds to decision-makers' needs for timely and relevant evidence by providing accessible synopses of recent research pertaining to the financing, delivery, and organization of home and community-based health care activities.

This digest is produced quarterly at the University of Toronto by the CHSRF/CIHR Health Services Chair in Health Care Settings and Canadians and remains the property of the Chair.

The Chair is supported by the Canadian Health Services Research Foundation in partnership with the Canadian Institutes of Health Research, and by the regional co-sponsor, the Ontario Ministry of Health and Long Term Care.

Synopses are provided in two formats: **Headlines & Conclusions** crystallize the take-home messages of the research in a few sentences; **Thumbnail Summaries** condense the background, methods, findings, and conclusions of the research into quick-to-use, single-page overviews that include reference information.

Please see Page 12 for information on Review Team and list of Journals Reviewed.
