

Home and Community Care Highlights

A digest produced quarterly at the University of Toronto
by the CHSRF/CIHR Health Services Chair in
Health Care Settings and Canadians

Volume 7, Number 4: December 2008

In this issue:

- From One Job to Another: Being Employed Does Not Decrease the Likelihood of Becoming an Unpaid Caregiver for Women in their 50s;
- Beyond Caregiving Costs: Measuring the Caregiving Process of Unpaid Caregivers;
- Multidisciplinary Fall Prevention Interventions Do Not Always Work;
- Obesity among the Retired Population: Who is at Risk?
- Challenges in Shifting Care to the Community: Early Postpartum Strategies;
- Publicly Releasing Performance Data Stimulates Quality Improvement, but has Little Effects on the Public;
- No Benefits Gained from Using In-Home Defibrillators

From One Job to Another: Being Employed Does Not Decrease the Likelihood of Becoming an Unpaid Caregiver for Women in their 50s	2	4
Beyond Caregiving Costs: Measuring the Caregiving Process of Unpaid Caregivers	2	5
Multidisciplinary Fall Prevention Interventions Do Not Always Work	2	6
Obesity among the Retired Population: Who is at Risk?	2	7
Challenges in Shifting Care to the Community: Early Postpartum Strategies	2	8
Publicly Releasing Performance Data Stimulates Quality Improvement, but has Little Effect on the Public	3	9
No Benefits Gained From Using In-Home Defibrillators	3	10

About Home and Community Care Highlights:

Home and Community Care Highlights responds to decision-makers' needs for timely and relevant evidence by providing accessible synopses of recent research pertaining to the financing, delivery, and organization of home and community-based health care activities.

This digest is produced quarterly at the University of Toronto by the CHSRF/CIHR Health Services Chair in Health Care Settings and Canadians and remains the property of the Chair.

The Chair is supported by the Canadian Health Services Research Foundation in partnership with the Canadian Institutes of Health Research, and by the regional co-sponsor, the Ontario Ministry of Health and Long Term Care.

Synopses are provided in two formats: **Headlines & Conclusions** crystallize the take-home messages of the research in a few sentences; **Thumbnail Summaries** condense the background, methods, findings, and conclusions of the research into quick-to-use, single-page overviews that include reference information.

Please see Page 11 for information on Review Team and list of Journals Reviewed.
