

# Home and Community Care Highlights

A digest produced quarterly at the University of Toronto  
by the CHSRF/CIHR Health Services Chair in  
Health Care Settings and Canadians

**Volume 9, Number 2: June 2010**

**In this issue:**

- informal caregiver and care-receiver relationships and their attitudes towards long-term care placement and the impact on the progression of dementia;
- comparing nursing home costs to the costs of hospital care in England;
- self-perceived quality of private home care and its potential impact on long-term care placement;
- musculoskeletal pain and its association with risk of falls;
- dementia education planning for long-term care homes in Ontario;
- Ontario primary care physician reform and its impact on physicians income and work satisfaction; and
- comparing residents functional outcomes in nursing homes with low number of beds to nursing homes with a large number of beds.
