

Home and Community Care Highlights

A digest produced quarterly at the University of Toronto
by the CHSRF/CIHR Health Services Chair in
Health Care Settings and Canadians

Volume 8, Number 3: September 2009

In this issue:

- comparing the cost-effectiveness of three different prenatal screening strategies for Down's syndrome;
- effectiveness of telephone based peer support in preventing postnatal depression;
- looking at the association between maternal obesity and congenital anomalies;
- the impact of extended hospital stay for pre-term infants on medical care costs and clinical outcomes;
- discussions of women's experience with cardiac pain and value in using resting heart rate as a predictor of health problem;
- cost-effectiveness of drug treatment for dyslipidemia and hypertension in Canada;
- the impact of pharmacist-managed anticoagulation clinics on warfarin therapy for treating thromboembolic diseases.
