

Rotman Commerce  
**UNIVERSITY OF TORONTO**

**Course Outline**

**RSM327H1S**  
**Business Information Systems**  
**Winter 2019**

---

<b>Class time, location and instructor</b>	L0101 & L0201	Tuesday & Wednesday	4pm-6pm	OI 4422	Amy Kwan
<b>Workshop time, location and TA</b>	Optional	Tuesday & Wednesday	6pm-7pm	OI 4422	Various

<b>Instructor contact information</b>	Email: amyk.kwan@utoronto.ca ( <i>please include "RSM327" at the beginning of the email subject line</i> ) Office: RT511 Office Hours: after class or by appointment To schedule an appointment, please send an e-mail in advance to let me know what you would like to discuss.
<b>TA contact information</b>	For Course Admin/Excel Assign email: scottj.cuthbertson@utoronto.ca For Group Project Questions email: vidhya.arulnathan@mail.utoronto.ca ( <i>please include "RSM327" at the beginning of the email subject line</i> ) <b>Note:</b> the TAs should be your first point of contact for course content or administrative matters.

<b>Course Websites</b>	Course Site: <a href="https://q.utoronto.ca/">https://q.utoronto.ca/</a> MyITLab Site: <a href="https://www.pearsonmylabandmastering.com">https://www.pearsonmylabandmastering.com</a>
<b>Prerequisite:</b>	N/A
<b>Exclusions:</b>	CSC340H1
<b>Required Text/Lab:</b>	Kroenke, Gemino, Tingling <i>Experiencing MIS</i> , Fourth Canadian Edition with MyITLab, Pearson Education, 2015.  See information posted on the course website for purchasing options. Please see description below for registration instructions.

## Course Scope and Mission

Information Systems (ISs) have been increasingly used by businesses to develop and implement strategies to compete locally and globally. ISs have helped with knowledge-based operations and products; flatter, more flexible and efficient organizations; as well as Information Technology (IT) enabled relationships with customers, suppliers and stakeholders. In the past century businesses have been one of the principle drivers of grand IT developments and have reaped the highest benefits from it.

In the information era, business and commerce graduates are increasingly required to not only apply, but also develop and manage ISs to streamline management and operations of their businesses, establish electronic commerce, and change the basis of competition in their business. To this effect, graduates need to understand the technology, its trends of developments, its potentials and threats, and be able to identify the needed technological change in their organization, the risks of change, the symptoms of failure to change, and the need to design and manage change.

This course provides an introduction to the ways with which ISs have transformed management and operations of our businesses and lives, and how new knowledge based economies and societies are emerging. The technical foundations of ISs, including computer hardware/software, Databases, communication systems and computer networks will be followed by the organizational framework of ISs; namely the ISs in support of developing and implementing business strategies, management decision and business operations. Based on these foundations, the development and management of ISs infrastructure will be analyzed; concluding the course with the ethical and security issues associated with ISs. No previous background in computing is assumed.

## EVALUATION AND GRADES

Grades are a measure of the performance of a student in individual courses. Each student shall be judged on the basis of how well he or she has command of the course materials.

<b>Evaluation</b>	<b>Weight</b>	<b>Date(s)</b>
Class/Course Participation	10%	Ongoing
MyITLabs: MS Excel and MS Access	5%	Ongoing
MS Excel-based Assignments (2 parts)	8%	Jan 26 & Feb 2
Midterm Test	12%	Week of Feb 11 (tbc)
Special Topic Blog	5%	Mar 16
<b>Group Project</b>		
Phase 1: Problem and Scope Statements	3%	Feb 9
Phase 2: Business Requirements	5%	Mar 9
Phase 3: Process Flow and IS Design	10%	Mar 23
Phase 4: Group Presentation	7%	Mar 25 (in-class presentations Mar 26/27 & Apr 2/3)
Final Examination	35%	Final Examination period
<b>Total</b>	<b><u>100%</u></b>	

## REQUIREMENTS AND CRITERIA

### Class Participation

The primary goal of the individual participation portion of the grade is to reward you for your preparation and individual contributions to the learning environment. It includes, but is not limited to, asking and answering questions, in-class participation work, in-class quizzes, etc. Class participation is **not** based on attendance or preparation of course material. Students are strongly encouraged to bring their name cards to every class.

Class discussion is an essential part of learning, and it is also the most interesting way to conduct a class. Class participation will enhance your presentation and communication skills, which will help you in recruiting and in your career. Students are expected to prepare in advance for classes, attend classes and to contribute to discussions on a *constructive and regular* basis.

Professionalism is a component of class contribution. As such late arrivals, unexplained absences and disruptive behaviour (including internet surfing, texting, use of Facebook etc.) will be penalized via your class contribution assessment.

### **MyITLabs:**

Working knowledge of MS Excel and MS Access is becoming increasingly important to employers. Students will have an opportunity to practically apply course materials through online labs and simulations. Details about the evaluation will be announced in class.

MyITLab registration for RSM327 Winter 2019:

1. Go to [pearsonmylabandmastering.com](http://pearsonmylabandmastering.com)
2. Under Register, click **Student**.
3. Enter your instructor's course ID: **kwan66838** and click **Continue**.
4. Sign in with an existing Pearson account or create an account:
  - **Please ensure you register using the name as displayed on your T-Card**
  - If you have used a Pearson website (for example, MyITLab, MyMathLab, or MyPsychLab), enter your Pearson username and password. Click **Sign in**.
  - If you do not have a Pearson account, click Create. Write down your new Pearson username and password to help you remember them.
5. Select an option to access your instructor's online course:
  - Use the access code that came with the textbook or that you purchased separately from the UofT bookstore.
  - If you wish to purchase the eText+MyITLab online, you may do so using a credit card or PayPal, however, important note: if you wish to purchase the MyITLab access-only (no eText) you must purchase this from the UofT bookstore – this option is only available at the bookstore.
6. Click **Go To Your Course** on the Confirmation page. Under MyLab & Mastering New Design on the left, click **RSM327 Winter 2019** to start your work.

### **MS Excel-based Assignments:**

Part 1 of 2 is completed through your MyITLab account. Part 2 of 2 will be announced in class and posted on the course website at least two weeks prior to the submission deadline.

### **Midterm Test:**

Details for the midterm will be announced in class. It will cover any materials from Class 1-5.

### **Group Project:**

Students should form groups of 5-6 students per group by the second class. The instructor might adjust this number in order to accommodate variations in class sizes. The group will work as a studying unit throughout the term. Students are responsible for finding a group and should inform the instructor of the composition of each group.

**Details for the group project will be posted on the course website.** Late assignments will not be accepted and will receive a mark of zero. The project will run throughout the semester with specified project deliverables at milestone dates which will be announced in class and included in the group project hand-out. Full details of the group projects will be posted on the course site.

Should there be any concern about contribution, group members' should inform the instructor as soon as possible. The instructor reserves the right to award the mark of zero to any student who is working ineffectively in a group. Peer evaluations may be undertaken to ensure that all members of each group are contributing equally; that is, the contribution of each member of the group will be assessed by all members of the group at the end of the term and appropriate rescaling of each individual's grade for group work may be made. Your peer evaluation would need to be conducted transparently amongst your group members.

### **Final Examination:**

The final examination will be held during the formal examination period. The date and time of the final examination will be announced by the Faculty of Arts and Science. It will be three hours in duration and may consist of multiple choice questions, short answer questions, problems, and/or a case. It will cover all materials from the entire course.

### **Aids Allowed**

No study aids are allowed. You may use a non-programmable hand-held calculator.

## **COURSE FORMAT AND EXPECTATIONS**

### **Turnitin.com:**

Submission of assignments using Quercus will also result in the use of Turnitin. Turnitin.com for a review of textual similarity and detection of possible plagiarism. In doing so, students will allow their essays to be included as source documents in the Turnitin.com reference database, where they will be used solely for the purpose of detecting plagiarism. The terms that apply to the university's use of the Turnitin.com service are described on the Turnitin.com website.

### **For Written Assignments:**

Please note that clear, concise, and correct writing will be considered in the evaluation of Assignments. That is, you may lose points for writing that impedes communication: poor organization, weak paragraph development, excessive wordiness, hard-to-follow sentence structure, spelling mistakes and grammatical errors. Students who require additional support and/or tutoring with respect to their writing skills are encouraged to visit the Academic Success Centre (<http://www.studentlife.utoronto.ca/asc>) or one of the College Writing Centres ([www.writing.utoronto.ca/writing-centres](http://www.writing.utoronto.ca/writing-centres)). These centres are teaching facilities – not editing services, where trained staff can assist students in developing their academic writing skills. There is no charge for the instruction and support.

### **For Group Work:**

The group project requires students to work in teams of 5-6. Learning to work together in teams is an important aspect of your education and preparation for your future careers. That said, project-based teamwork is often new to students; to work well in teams, it helps to follow a set of core expectations to best succeed at your team projects.

1. Read the document entitled, “Working in Teams: Guidelines for Rotman Commerce Students” which is available on the RC portal under the Academic Services tab.

2. When working in a team, Rotman Commerce students are expected to:

- Treat other members with courtesy and respect;
- Honour the ground rules established by the team;
- Contribute substantially and proportionally to the final project;
- Ensure enough familiarity with the entire contents of the group project/assignment so as to be able to sign off on it as original work;
- Meet the project timeline as established by the team.

3. Resolving conflicts:

Conflicts are part of the team’s process of learning how to work together. When handled well, it can generate creativity and bring-multiple perspectives to the solution.

Student teams are expected to work through their misunderstandings as soon as they arise (and prior to submission of the final project). When teams are unable to arrive at a solution that works for all members, the team must meet with the Rotman Commerce Team Coach\*\* as soon as possible. The Coach will listen to the team and help develop options for improving the team process. All members of the project team must commit to, and, utilize their action plans.

\*\*For an appointment with a Rotman Commerce Team Coach, please contact Nouman Ashraf at [nouman.ashraf@rotman.utoronto.ca](mailto:nouman.ashraf@rotman.utoronto.ca) Nouman is highly skilled at facilitating team dynamics and collaboration. Note that the Team Coach’s role is to provide guidance, support and advice on team matters – not to formally evaluate or assess teamwork for academic purposes.

### **Electronic Course Materials**

This course will be using the following electronic course materials: MyITLab

These materials will cost a total of up to \$65.00 CAD. The use of these materials complies with all University of Toronto policies which govern fees for course materials.

### **POLICY AND PROCEDURE**

#### **Missed Tests and Assignments (including midterm examinations)**

Students who miss a test or assignment for reasons entirely beyond their control (e.g. illness) may submit a request for special consideration. The Request for Special Consideration Form and supporting documentation must be submitted in a timely manner in order for the request to be reviewed.

In such cases, students must notify the Rotman Commerce Program Office on the date of the course deliverable such as a missed test, or assignment missed class (in the case of participation marks), or due date. They must then complete a [Request for Special Consideration Form](#) and submit it along with supporting documentation (e.g. [Verification of Student Illness or Injury form](#)) to the Rotman Commerce Office within **2 business days** of the originally scheduled course deliverable. Students who do not provide appropriate or sufficient supporting documentation will be given a grade of 0 (zero) for the missed course deliverable.

Documentation submitted in support of petitions for missing tests and assignments must be original; no faxed or scanned copies will be accepted.

**Note that the physician’s report must establish that the patient was examined and diagnosed at the time of illness, not after the fact. Rotman Commerce will not accept a**

**statement that merely confirms a later report of illness made by the student to a physician.**

Students who follow the above procedures may have his or her individual marks reallocated to the final exam. Group assignment(s) will need to be discussed with the course instructor on a case by case basis. If you fail to provide the required documentation, you will be assigned a mark of zero. There will be no make-up tests or assignments.

**Late Assignments**

No late assignments will be accepted. All assignments are due on the date specified in the course outline or instructions provided, unless otherwise announced in class and posted on Quercus. If appropriate documentation is provided, the value of the missed assignment will be added to the final test.

Students who, for reasons beyond their control, are unable to submit an assignment by its deadline must obtain approval from the instructor for an extension. Supporting documentation will be required as per the policy on missed tests and assignments.

**Accessibility Needs**

The University of Toronto is committed to accessibility. If you require accommodations for a disability, or have any accessibility concerns about the course, the classroom or course materials, please contact Accessibility Services as soon as possible:

[accessibility.services@utoronto.ca](mailto:accessibility.services@utoronto.ca) or <http://www.studentlife.utoronto.ca/as>.

**Academic Integrity**

Academic Integrity is a fundamental value essential to the pursuit of learning and scholarships at the University of Toronto. Participating honestly, respectfully, responsibly, and fairly in this academic community ensures that the UofT degree that you earn will continue to be valued and respected as a true signifier of a student's individual work and academic achievement. As a result, the University treats cases of academic misconduct very seriously.

*The University of Toronto's Code of Behaviour on Academic Matters*

<http://www.governingcouncil.utoronto.ca/policies/behaveac.htm> outlines the behaviours that constitute academic misconduct, the process for addressing academic offences, and the penalties that may be imposed. You are expected to be familiar with the contents of this document. Potential offences include, but are not limited to:

In papers and assignments:

- Using someone else's ideas or words without appropriate acknowledgement.
- Submitting your own work in more than one course without the permission of the instructor.
- Making up sources or facts.
- Obtaining or providing unauthorized assistance on any assignment (this includes collaborating with others on assignments that are supposed to be completed individually).

On test and exams:

- Using or possessing any unauthorized aid, including a cell phone.
- Looking at someone else's answers
- Misrepresenting your identity.
- Submitting an altered test for re-grading.

Misrepresentation:

- Falsifying institutional documents or grades.

- Falsifying or altering any documentation required by the University, including (but not limited to), medical notes.

All suspected cases of academic dishonesty will be investigated by the following procedures outlined in the *Code of Behaviour on Academic Matters*. If you have any question about what is or not is permitted in the course, please do not hesitate to contact the course instructor. If you have any questions about appropriate research and citation methods, you are expected to seek out additional information from the instructor or other UofT resources such as College Writing Centres or the Academic Success Centre.

### **Email**

At times, the course instructor may decide to communicate important course information by email. As such, all UofT students are required to have a valid UTmail+ email address. You are responsible for ensuring that your UTmail+ email address is set up AND properly entered on the ACORN system. For more information please visit <http://help.ic.utoronto.ca/category/3/utmail.html>

Forwarding your utoronto.ca email to a Hotmail, Gmail, Yahoo or other type of email account is not advisable. In some cases, messages from utoronto.ca addresses sent to Hotmail, Gmail or Yahoo accounts are filtered as junk mail, which means that important messages from your course instructor may end up in your spam or junk mail folder.

### **Quercus and the Course Page**

The online course page for this course is accessed through Quercus. To access the course page, go to [q.utoronto.ca](http://q.utoronto.ca) and log in using your UTORid and password. Once you have logged in, you will be at the Quercus Dashboard. On this page you will see all of the courses you are presently enrolled in. If you don't see the course listed here but you are properly registered for the course in ACORN, wait 48 hours.

### **Recording Lectures**

Lectures and course materials prepared by the instructor are considered by the University to be an instructor's intellectual property covered by the Canadian Copyright Act. Students wishing to record a lecture or other course material in any way are required to ask the instructor's explicit permission, and may not do so unless permission is granted (note: students who have been previously granted permission to record lectures as an accommodation for a disability are, of course, excepted). This includes tape recording, filming, photographing PowerPoint slides, Quercus materials, etc.

If permission is granted by the instructor (or via Accessibility Services), it is intended for the individual student's own study purposes and does not include permission to "publish" them in anyway. It is absolutely forbidden for a student to publish an instructor's notes to a website or sell them in any other form without formal permission.

### **Saving Paper in Courses**

"Each year at U of T, an estimated 10 million sheets of paper are used in the printing of lecture slides, tests, assignments, and other course materials in 1st and 2nd year courses alone" (Sustainability Office, University of Toronto). Please do your part in helping to conserve paper in this (and all other) courses. Consider the following ideas:

- Avoid printing electronic documents – get used to working with them from digital format (you will need to do this in your professional careers);
- Make your own notes in electronic documents (e.g. MS Word, MS Excel, Google Docs, etc);
- If you are printing, make sure you select double-sided printing (available at all libraries);
- Take leadership and share your concerns and ideas with all of us so we can improve our practices.

**RSM327 WINTER 2019 – WEEKLY CLASS SCHEDULE\***

<b>Week</b>	<b>Week of:</b>	<b>Topic(s)</b>	<b>Readings</b>	<b>Optional Workshops</b>	<b>Deliverables</b>
1	Jan. 7	Information Systems and You	Ch.1		
2	Jan. 14	Business Process and Decision Making	Ch.2		<b>Fri Jan 18:</b> MyITLab #1 (MS Excel)
