COURSE OUTLINE  
RSM 425 H1S  
Financial Reporting and Control: Theory and Contemporary Topics  
Winter 2017

Instructor  
Professor Baohua Xin  
Email & office phone  
bxin@rotman.utoronto.ca

Class Time/Location  
Thursday 12-2, Room WO35

Office Hours/Location  
By appointment, RT 541

Required Textbook  

Supplemental Reading  
Additional reading materials may be assigned

Course Prerequisites  
RSM 222H1, RSM 332H1

Course Co-Requisite  
RSM 333H1 If you drop course RSM333H1 (the co-requisite) during the academic term, you must also drop this course. Contact Rotman Commerce Academic Program Services for academic advising if needed.

OBJECTIVES OF THE COURSE

This is NOT a course in which we learn how to do accounting. This is a course in which we examine accounting information critically from users’ perspective. In other words, we will learn what accounting can do for us in investment and corporate control.

The course is designed for the fourth year undergraduate students. Since the course is not about specific accounting rules, it is also open to finance students and the third year students with good academic standing. Both accounting and finance students should benefit substantially from the course materials.
The primary objective of the course is to focus on contemporary topics and research to help students understand why we need accounting information in investment and corporate control and build a strong theoretical foundation on using accounting information.

The secondary objective is to improve students’ analytical and critical thinking skills by exposing them to academic research and explaining basic research methodologies.

REQUIREMENTS

**Quizzes**

There are assigned reading materials for each session. You are asked to read the textbook chapter and any articles assigned in advance. The quizzes are designed to test your general understanding of the reading materials. There will be no make-up quizzes, but you are allowed to drop a quiz with the lowest mark.

**Class Participation and Homework**

The primary goal of the participation portion of the grade is to reward you for your preparation and individual contributions to the learning environment. It includes but is not limit to attendance, asking and answering questions, etc. I will ask you write up and submit a case analysis, a summary of an assigned article, or some other class based question/scenario. Participation and homework will be graded for both effort and quality.

**Term Test**

The term test will be held in class on February 16. It will be one hour and forty minutes long.

**Independent Research Project**

Students can either complete the project independently or form a group with another student. More details will be given around the time of the term test. The assignment is due in hard copy in class on March 30.

POLICY AND PROCEDURE

**Missed Tests and Assignments (including midterm examinations)**

Students who miss a test or assignment for reasons entirely beyond their control (e.g. illness) may submit a request for special consideration. Provided that notification and documentation are provided in a timely manner, and that the request is subsequently approved, no academic penalty will be applied.
In such cases, students must notify Rotman Commerce on the date of the missed test (or due date in the case of course work) and submit supporting documentation (e.g. Verification of Student Illness or Injury form) to the Rotman Commerce Program Office within **48 hours** of the originally scheduled test or due date. Students who do not provide Rotman Commerce or the instructor with appropriate or sufficient supporting documentation will be given a grade of 0 (zero) for the missed test or course deliverable.

**Note that the physician’s report must establish that the patient was examined and diagnosed at the time of illness, not after the fact. Rotman Commerce will not accept a statement that merely confirms a report of illness made by the student and documented by the physician.**

For students who miss the term test but follow the above procedures, a make-up exam will be offered.

**Late Assignments**
No late assignments will be accepted. Students who, for reasons beyond their control, are unable to submit an assignment by its deadline must obtain approval from the instructor for an extension. Supporting documentation will be required as per the policy on missed tests and assignments.

**Accessibility Needs**
The University of Toronto is committed to accessibility. If you require accommodations for a disability, or have any accessibility concerns about the course, the classroom or course materials, please contact Accessibility Services as soon as possible: accessibility.services@utoronto.ca or http://www.accessibility.utoronto.ca/.

**Academic Integrity**
Academic Integrity is a fundamental value essential to the pursuit of learning and scholarships at the University of Toronto. Participating honestly, respectively, responsibly, and fairly in this academic community ensures that the UofT degree that you earn will continue to be valued and respected as a true signifier of a student’s individual work and academic achievement. As a result, the University treats cases of academic misconduct very seriously.

*The University of Toronto’s Code of Behaviour on Academic Matters* [http://www.governingcouncil.utoronto.ca/policies/behaveac.htm] outlines the behaviours that constitute academic misconduct, the process for addressing academic offences, and the penalties that may be imposed. You are expected to be familiar with the contents of this document. Potential offences include, but are not limited to:

- Using someone else’s ideas or words without appropriate acknowledgement.
- Submitting your own work in more than one course without the permission of the instructor.
- Making up sources or facts.
- Obtaining or providing unauthorized assistance on any assignment (this includes collaborating with others on assignments that are supposed to be completed individually).
On test and exams:
- Using or possessing any unauthorized aid, including a cell phone.
- Looking at someone else’s answers.
- Misrepresenting your identity.
- Submitting an altered test for re-grading.

Misrepresentation:
- Falsifying institutional documents or grades.
- Falsifying or altering any documentation required by the University, including (but not limited to), medical notes.

All suspected cases of academic dishonesty will be investigated by following the procedures outlined in the Code of Behaviour on Academic Matters. If you have any questions about what is or is not permitted in the course, please do not hesitate to contact the course instructor. If you have any questions about appropriate research and citation methods, you are expected to seek out additional information from the instructor or other UofT resources such as College Writing Centres or the Academic Success Centre.

Email
At times, the course instructor may decide to communicate important course information by email. As such, all UofT students are required to have a valid UTmail+ email address. You are responsible for ensuring that your UTmail+ email address is set up AND properly entered on the ROSI system. For more information please visit http://help.ic.utoronto.ca/category/3/utmail.html.

Forwarding your utoronto.ca email to a Hotmail, Gmail, Yahoo or other type of email account is not advisable. In some cases, messages from utoronto.ca addresses sent to Hotmail, Gmail or Yahoo accounts are filtered as junk mail, which means that important messages from your course instructor may end up in your spam or junk mail folder.

Blackboard and the Course Page
The online course page for this course is accessed through Blackboard. To access the course page, go to the UofT Portal login at https://portal.utoronto.ca/ and log in using your UTORid and password. Once you have logged in, look for the My Courses module where you’ll find the link to all your course websites. If you don’t see the course listed here but you are properly registered for the course in ROSI, wait 48 hours. If the course does not appear, go to the Information Commons Help Desk in Robarts Library, 1st floor, for help, or explore the Portal Information and Help at http://www.portalinfo.utoronto.ca/content/information-students and review the Frequently Asked Questions.

RECORDING LECTURES
Lectures and course materials prepared by the instructor are considered by the University to be an instructor’s intellectual property covered by the Canadian Copyright Act. Students wishing to record a lecture or other course materials in any way are required to ask the instructor’s explicit permission, and may not do so unless permission is granted (note: students who have been previously granted permission to record lectures as an accommodation for a disability are, of course, exempted). This includes tape recording, filming, photographing PowerPoint slides, blackboard materials, etc.
CONDUCT OF CLASSES AND EXPECTATIONS

Classes will begin at ten minutes after the hour, in accordance with university policy. Students are expected to arrive on time so as not to disrupt the class.

| Class 1,      | Overview                                        | • Objective of the course  
• Historical perspective of accounting  
• Complexity of financial reporting and regulations  
• Fundamental problem of financial accounting theory  
• Accounting standard setting and accounting research  
• New challenges of accounting practice (Discuss topics in course outline) |
| January 5     |                                                 | **Readings: Chapter 1 of Textbook**                                                                                                                                                                               |
| Class 2,      | Financial Reporting for Decision Making         | • Accounting under ideal conditions  
• Accounting under information uncertainty  
• Decision usefulness approach  
• Reaction of professional accounting bodies to decision approach  
• Decision usefulness for managers, analysts, and investors |
| January 12    |                                                 | **Readings: Chapters 2 and 3 of textbook.**                                                                                                                                                                      |
| Class 3,      | Efficient Securities Market and Implications    | • Efficient market hypothesis  
• Implications of efficient markets for financial reporting  
• Informativeness of stock price and information asymmetry  
• Social significance of securities market that work well |
| January 19    |                                                 | **Readings: Chapter 4 of textbook.**                                                                                                                                                                             |
| Class 4, January 26 | Information-based Financial Accounting Theory | • Accounting theory and accounting research  
• Research methodology  
• Event studies (Ball and Brown 1968)  
• Earnings response coefficients  
• Information content of financial statement information  
• A Caveat about the “best” accounting policy  

Readings: Chapter 5 of textbook |
| --- | --- | --- |
| Class 5, February 2 | Measurement-based Financial Accounting Theory | • Efficient securities market: Revisit  
• Accounting anomalies and behavioral finance  
• Value relevance of financial statement information  
• Valuation model  
• Measurement applications (financial statement items)  

Readings: Chapters 6 and 7 of textbook. |
| Class 6, February 9 | Efficient Contracting & Data Analysis | • Efficient contracting theory and corporate governance  
• Accounting policies for efficient contracting  
• Employee stock options  

Readings: Chapter 8 of textbook. |
| Class 7, February 16 | Mid-Term Test : Cover the materials in Lectures 1-6 |
| February 21-24, Reading Week, No Classes |
| Class 8, March 2 | Conflict of Interests and Management Control | • An overview of agency theory  
• An analysis of conflict: Agency theory and management control  
• Accounting numbers in contracting |
