## The TBT Collaborators' Meeting was a great success.

Thank you to everyone who attended  
and took part in the lively discussion.

A complete list of the participants appears  
on the other side of this page.

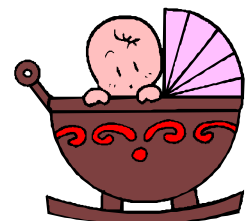

The final paper is now in press with *The Lancet* and is scheduled for publication  
on October 21.

As mentioned at the Collaborators' Meeting, we will prepare a PowerPoint presentation for distribution by email just prior to this date. Be sure to send us your email address, if we have not regularly corresponded with you by email.

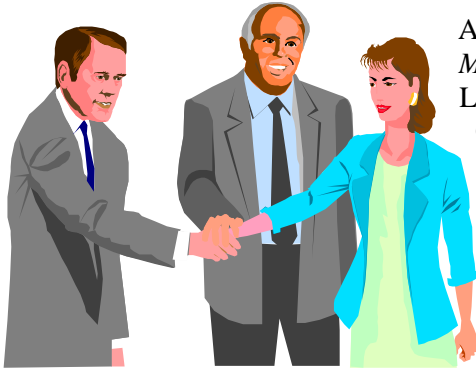

### Follow-up

The very last of the 3 Month Postpartum Questionnaires should now be on their way to us. The analysis of this first follow-up information will begin soon.

Please continue with the 2 Year Follow-up program if you have been participating to date. Remember the importance of administering the Ages & Stages Questionnaire at the proper time [23-25 months]. We really appreciate all your efforts to get this data.

**The following centre collaborators attended the recent TBT Meeting in Toronto. They were joined by guest speakers Dr David Naylor, Dean of Medicine, University of Toronto and Dr David Sackett from The Trout Education and Research Centre at Irish Lake. Also present were members of the Steering Committee, the Data Monitoring Committee and the Data Coordinating Centre.**
