## Three Month Postpartum Data:

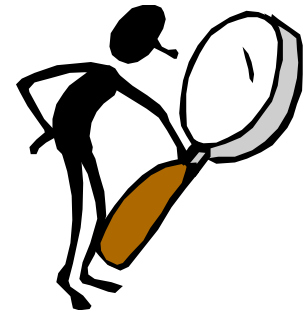

The three month postpartum data are all in and we are now working on the data analysis. We will keep you posted as to the results.

*Thanks to everyone involved in making this portion of the trial a success!*

## 2 Year Follow Up:

The 2 year follow-up is still underway and the numbers look great so far. We are very grateful for everyone's hard work and dedication in tracking down the mothers involved. *Way to go !!*

We have tallied up the number of women that have been successfully contacted as of February 15, 2001 for each country and centre, and listed the results in a table on page 2 - *Have a look !!* We will continue to publish this information bimonthly to keep you informed as to the status of the trial.

**Also, we have a new addition to the Term Breech Team – Laurie Kilburn has joined us ...**

Hi Everybody, my name is Laurie Kilburn and I will be assisting Sheila and Julie in the collection and processing of the 2 year postpartum follow-up data.

I am very excited to be part of the Term Breech Trial and look forward to working with you!
