## Update on TBT publications

**The following papers have been published so far:**

- Hannah ME, Hannah WJ, Hewson S, Hodnett E, Saigal S, Willan A for the Term Breech Trial Collaborative Group. Planned caesarean section versus planned vaginal birth for breech presentation at term: a randomised multicentre trial. *The Lancet* 2000;356:1375-83.
- Hannah M, Hannah W, Hodnett E, Chalmers B, Kung R, Willan A, Amankwah K, Cheng M, Helewa M, Hewson S, Saigal S, Whyte H, Gafni A, for the Term Breech Trial 3-Month Follow-up Collaborative Group. Outcomes at 3 months after planned caesarean vs planned vaginal delivery for breech presentation at term: The international randomized Term Breech Trial. *JAMA* 2002;287:1822-31.
- Su M, McLeod L, Ross S, Willan A, Hannah WJ, Hutton E, Hewson S, Hannah M for the Term Breech Trial Collaborative Group. Factors associated with adverse perinatal outcome in the Term Breech Trial. *Am J Obstet Gynecol* 2003;189:740-5.

**If you are not a named author on a TBT publication, but you were part of the Collaborative Group, you should list the paper in your CV as follows:**

Example: Su M, McLeod L, Ross S, Willan A, Hannah WJ, Hutton E, Hewson S, Hannah M for the Term Breech Trial Collaborative Group (including **Smith JC**). Factors associated with adverse perinatal outcome in the Term Breech Trial. *Am J Obstet Gynecol* 2003;189:740-5.

**The results of the 2 year follow-up of the baby and mother have been accepted for presentation at the Meeting of the Society of Maternal Fetal Medicine (SMFM) in New Orleans, USA on February 5, 2004. The abstracts for these presentations will be published in the December issue (2003) of the American Journal of Obstetrics and Gynecology. Neither the Lancet nor JAMA have indicated a wish to publish the 2 year follow-up papers and so they will be submitted to the American Journal of Obstetrics and Gynecology as a follow on from the SMFM meeting. We will keep you posted!!**
