## Update on TBT publications

**We are delighted to be able to tell you that the 2-year follow-up papers have been accepted for publication:**

- Whyte H, Hannah ME, Saigal S, Hannah WJ, Hewson S, Amankwah K, Cheng M, Gafni A, Guselle P, Helewa M, Hodnett E, Hutton E, Kung R, McKay D, Ross S, Willan A for the 2 year infant follow-up Term Breech Trial Collaborative Group. Outcomes of children at 2 years after planned cesarean vs planned vaginal delivery for breech presentation at term: the international randomized Term Breech Trial. Am J Obstet Gynecol 2004 (in press).
- Hannah ME, Whyte H, Hannah WJ, Hewson S, Amankwah K, Cheng M, Gafni A, Guselle P, Helewa M, Hodnett E, Hutton E, Kung R, McKay D, Ross S, Saigal S, Willan A for the 2 year maternal follow-up Term Breech Trial Collaborative Group. Maternal outcomes at 2 years after planned cesarean vs planned vaginal delivery for breech presentation at term: the international randomized Term Breech Trial. Am J Obstet Gynecol 2004 (in press).

**There is also another secondary analysis of the main trial results in press:**

- Su M, Hannah W, Willan A, Ross S, Hannah M for the Term Breech Trial Collaborative Group. Planned caesarean section decreases the risk of adverse perinatal outcome due to both labour and delivery complications in the Term Breech Trial. Br J Obstet Gynaecol 2004;111 (in press).

**As always, if you are not a named author on a TBT publication, but you are part of the Collaborative Group, please list the paper in your CV as a member of the Collaborative Group. For example, see below for a sample listing for Michael Helewa:**

Su M, Hannah W, Willan A, Ross S, Hannah M for the Term Breech Trial Collaborative Group (including Helewa M) . Planned caesarean section decreases the risk of adverse perinatal outcome due to both labour and delivery complications in the Term Breech Trial. Br J Obstet Gynaecol 2004;111 (in press).
