#### **MREC Ethics approval**:

With the help of Steve Walkinshaw, Liverpool, ethics approval has been obtained from the Northwest Multi-Centre Research Ethics Committee. Interested centres in the UK can contact the Data Coordinating Centre for the documentation.

#### **Data Form Notes:**

- 1. When returning the completed forms, please tear out the yellow sheets and keep them for your files. Mail only the white sheets to the Data Coordinating Centre. That way you will have a record of the data that has been sent to us. If a package is ever lost in the mail, then we can ask you to photocopy the yellow sheets and send them in.
- 2. Please note that the biparietal diameter (Entry Form, Question #2) is required to be in cm, not mm.

#### Important note to new centres and new personnel:

Be sure to use your assigned centre code when recruiting actual study patients. You will find this code written in the front of your Manual, and on the study number stickers which we provide to you.

The code 99-99-xxx is only to be used for practising with the randomisation service. These practice cases are not included in the study.
