Total recruited in May: 68 Overall Total: 1408

We're halt there!

Interim Analysis

The data have been sent to the Data Monitoring Committee.

For your interest, we have enclosed some overall baseline information from the analysis. Once again, thank you all for your help in getting to this point.

Please turn this page over for some tips to increase accrual.

Mugs this month:

(for centres reaching or passing their annual goal)

Jinnah PMC, *Karachi*, PAKISTAN (#9); Treliske, *Truro*, UK (#3); IOMC-Polizu, Bucharest, ROMANIA (#3); Ma'ayney Hayeshua, Bene Beraq, ISRAEL (#2); Distrital, Faro, PORTUGAL (#2); Grey Nun's, Edmonton, CANADA; LTMMC & LTMGH, Mumbai, INDIA; Univ of Iowa, Iowa City, USA

MAKING RECRUITMENT EASIER

During recent discussions with many of you in a variety of settings, we have become convinced that in those centres where recruitment proceeds most easily, the approach includes some common elements. You may wish to consider implementing these in your own centre.

There is usually a system in place by which women, when a breech presentation is diagnosed at or close to term, are referred by their physician or midwife to one of the individuals who has been designated as a Term Breech Trial advocate, BEFORE there is any discussion by their own physician or midwife as to the different options.

Your baby is in a breech presentation. You may be eligible to take part in an important international study about breech babies. Before I discuss what is best for you, I would like you to talk to Dr/Ms xxxxxx who will tell you about the study in detail.'

Advocates for the study are individuals who are usually Term Breech Trial collaborators who believe that the Term Breech Trial is the best of all possible options for eligible women. These individuals do not believe that planned vaginal breech birth is best, nor do they believe that planned Caesarean section is best. Rather, they believe that participation in the Term Breech Trial is best, and they recommend this to potentially eligible women.

If a woman decides against participation in the study, she is then offered the other options for the delivery of her baby or referred back to her own physician for a discussion as to which option she would prefer. However, if the woman chooses to participate in the Term Breech Trial, she is given encouragement and support by her own physician or midwife for making this choice.

Yes, I think the Term Breech Trial is a good idea.'

Data Notes

If the presentation of the fetus is 'complete breech' throughout labour and then the feet come down below the fetal buttocks during the vaginal delivery, please indicate the presentation at delivery as 'complete'. If the feet come down below the fetal buttocks during labour and prior to the delivery itself, the presentation should be noted as 'footling'. In the protocol we ask that the 'footling breech' presentation be delivered by Caesarean section. If, however, the presentation becomes a 'footling' during labour, and there is not enough time to arrange for a Caesarean section, please mark as one of the reasons for vaginal delivery 'Caesarean not possible'. If there was another reason why a Caesarean section was not undertaken in this situation, please make a hand-written note on the data form so that we can better understand what occurred.

Clinician Codes:

Clinician code numbers should be recorded in Question 9 on the Labour & Delivery Form for ALL deliveries, whether vaginal or C/S.

In the first part of the question: if someone from your Clinician List was present at the delivery, enter their assigned TBT code number(s). There is room to record 2 such people. Remember that someone named on the list **must** attend all vaginal breech deliveries.

In the second part of the question: supply us with information (qualification and years of vaginal delivery experience) about *other* persons at the delivery who are *not* on the Clinician List. <u>Do not include anyone from</u> your Clinician List in this section.

If your Clinician List needs to be revised or updated, please contact us. This information will be very important in the interpretation of the final results.
