University of Toronto Maternal, Infant and Reproductive Health Research Unit at The Centre for Research in Women's Health

Suite 751 790 Bay Street Toronto ON CANADA M5G 1N8 tel: 1 416 351 3776 fax: 1 416 351 8131 email: sheila.hewson@utoronto.ca website: www.utoronto.ca/breech

## Total recruited in September: 79 Overall Total: 1645

We are delighted to see accrual moving upward again. Our thanks to everyone who has pitched in with renewed enthusiasm. We sincerely hope that it is catching and chronic!

#### 2 Year Follow-up

We have now had a chance to review our budget with the inclusion of the funds recently granted to us by the Medical Research Council of Canada for the 2 Year Follow-up. We are pleased to tell you that we will be able to

provide a somewhat increased level of support to the centres undertaking this aspect of the trial and we will contact each site individually with the details. In addition, we should be able to provide funds for centre participation in a final meeting to review the trial results, if recruitment is completed by December 2000. If it takes longer than that, continued operation of the trial will cut into the prospects for the final meeting. Let's finish in 2000!

### Mugs this month:

(for centres reaching or passing their annual goal)

Jundiaí, Jundiaí, BRAZIL (#7); Christian Medical College, Vellore, INDIA (#3); Regionalspital, Biel, SWITZERLAND (#2); Sótero del Rio, Puente Alto, CHILE (#2); Misericordia, Edmonton, CANADA.

#### Centres recruiting their first patient:

Diana, Princess of Wales, Grimsby, UK.

#### Truth and Accuracy in Data... when something untoward happens.

Just a brief reminder that we at the Data Coordinating Centre are very much aware that the Term Breech Trial is being conducted in the real world and that things will not always go as smoothly as we might wish. It is a part of our role to query you about the data, but we do so only in order to ensure that it is as accurate as we can make it.

## Survey of facilities for neonatal and maternal care

We are sending out a survey form to each centre investigator, in order to collect information on the different resources that may be available at each site to care for mothers and babies.

The responses will allow us to describe the variation in these resources and will help others in assessing the generalizability of the TBT results.

We are still working toward getting the Listserv up and running. We hope to start it off very soon. Please do send us your email address, if you haven't already done this, so that you can join the group.

Questions or comments from participating mothers.

We would like to remind and encourage our collaborators to read over any comments that mothers may make in completing the 3 Month and 2 Year Postpartum Questionnaires. Some mothers may have questions or concerns that you can address directly, or they may request information about the study results when they become available.

We are not able to reply individually from the Data Coordinating Centre, as we do not keep any patient contact information.

#### **Interim II** – Planning for the second interim analysis

The 1600<sup>th</sup> patient was recruited by Princess Badeea Hospital in Jordan on September 14, 1999. All patients enrolled on or before this date will be included

We would like to receive <u>all data booklets</u> for these patients by mid-November. Please send them to us as soon as they are ready. If you currently have booklets or data queries outstanding, please forward them immediately. We can't proceed without your help in ensuring the completeness and accuracy of the data.
