THE EECV2 PROTOCOL HAS BEEN APPROVED!

The EECV2 Protocol has received ethics approval from Sunnybrook & Women's College Health Sciences Centre. The Data Coordinating Centre has been working hard putting together the Interested Centre Package containing the Protocol, Patient Information Sheet, Consent form and other important information. Very soon we will be sending the package to the interested centres. When you receive it, you can begin the process of getting local ethics approval. For those centres who have not yet expressed a definite interest in participating, we will be in touch with you soon to ask if you would like us to send this information to you.

The EECV2 Steering Committee has met on two occasions this year to work through start up issues.

Our goal is to open recruitment later this spring!
