EECV2 “Return of Data Campaign” Complete

**Congratulations to all of our centres for
reaching complete and clean status!**

Happy New Year from all of us at EECV2!

All of our recruiting centres have made 2008 an extraordinary year for the EECV2 Trial. Our recruitment goal was reached and surpassed in June – thank you so much for all your efforts to recruit 1543 women for the trial! On top of that, with your hard work all data has been returned and all queries responded to. The final analysis is set to begin in the New Year and we look forward to sharing the results with all of you at our Final Collaborators’ Meeting in Hamilton on May 7th and 8th, 2009.

We thank you all for your continued commitment to answering the question of best timing of ECV and wish you and yours all the best for a happy and healthy New Year!
