OVERALL TOTAL: 756
TOTAL FOR THIS MONTH: 41

We have recruited 50% of our sample!

This month we reached the half way point of the trial – Congratulations to all of you who have contributed along the way to this milestone and to **Dr Janet Andrews** and **Ms Dieder Fleener** at the University of Iowa, Iowa City, USA for recruiting the 730th woman into the EECV2 Trial. Please note that even though we are half way along in the recruitment for the EECV2 Trial, we are still interested in having new centres join us. As an active centre, in addition to your direct participation, you can help keep our recruitment building if you know of other centres who might be interested in the EECV2 Trial. We encourage you to consider speaking to your colleagues in other institutions and sending contact details to us if they indicate an interest.

EECV2 in Australia

Our principal investigator Eileen Hutton and research coordinator Sarah Edwards will be visiting our collaborating centres in Australia from March 18 until April 4, 2007. Please mark your calendars - we're looking forward to meeting all of our Australian collaborators!

Quote of the Month

Goals. There's no telling what you can do when you get inspired by them. There's no telling what you can do when you believe in them. There's no telling what will happen when you act upon them.
