## **Second Interim Analysis**

We have 841 of the 900 cases required for the analysis. Please send all your overdue data booklets and any queries that are outstanding as soon as possible! We greatly appreciate your cooperation and look forward to having all 900 cases returned and clean for the second interim analysis soon.

## **Recruitment Excellence!**

This month we are recognizing centres with their  $\underline{first}$  recruit – Congratulations to:

- Ms Anne Margaret Malott and Ms Angela Reitsma, McMaster University Medical Centre, *Hamilton*, CANADA
- Dr Glenn Gardener and Ms Sue Jenkins-Manning, Mater Mother's Hospital, *Brisbane*, AUSTRALIA
- Dr Carlos Becker, Hospital Durand, *Buenos Aires*, ARGENTINA

#### Quote of the Month

To succeed....you need to find something to hold on to, something to motivate you, something to inspire you.

#### Recruitment

(planned enrolment of 1460)

as of July 31, 2007

- Dr Frans JME Roumen and Dr Mijntje Pieters, Atrium Medical Center, *Heerlen*, THE NETHERLANDS
- Dr Frans Smits and Dr Florien ten Cate, Academisch Ziekenhuis, *Maastricht*, THE NETHERLANDS

## **Coming soon!**

Watch your mail boxes in the coming months for some new EECV2

promotional items! We will be sending you lots of our new items so that you can distribute them to your colleagues and around your unit. We hope that they will remind everyone that if they have a breech patient, she may be eligible for the EECV2 Trial!

## Compliance

In order for the trial to be able to answer the question of best timing for ECV we need as many women as possible to have their ECVs in the time frame in which they were randomized. Overall compliance with the timing of ECV has been good. Both early and delayed ECVs are being performed, for the most part, in the correct time frames. We understand that there will be some procedures performed outside of the allocated times for valid reasons but we would like to do everything possible to minimize these numbers. One way to help with this is to ensure that women understand what they are agreeing to when they are randomised into the study; that is, that they have an equal chance of being randomised into either group. Keep up the good work everyone!
