THE CLINICAL STUDY AGREEMENT ...

As you may recall, the University of British Columbia (UBC) and MIRU will be working in collaboration on the EECV2 Trial with MIRU acting as the Data Coordinating Centre and UBC as the Clinical Coordinating Centre. As a result of this collaboration, we experienced a slight delay in our centres being able to receive the Clinical Study Agreement. We are pleased to report that an Inter-Institutional Agreement between UBC and MIRU at Sunnybrook and Women's College Health Sciences Centre has now been signed. The Clinical Study Agreements are on their way to all interested centres. Once your signed ethics approval and Clinical Study Agreements have been received by us at our UBC, Clinical Coordinating Centre, you will be ready to begin recruitment! We apologize for the delay and now look forward to moving ahead. Thank you for your patience and continued support of the EECV2 Trial!

.....

Spanish Protocol

The EECV2 Protocol has been translated into Spanish and is now available for those centres that require it. Please do not hesitate to contact us at eecv2@cw.bc.ca if you would like to receive a Spanish version of the EECV2 protocol. The protocol is also available on the website (www.utoronto.ca/miru/eecv2).

.....

Mark your calendars!

We are very excited to announce that the 1st EECV2 collaborators meeting will be held in Toronto April 13th to 15th, 2005. We look forward to seeing many of you and discussing the EECV2 Trial. More detailed information will follow shortly.

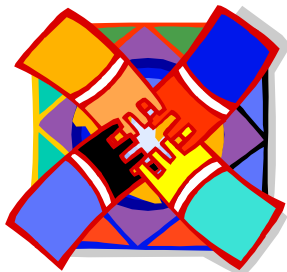

Congratulations!

Congratulations to Sonya Mergler on the birth of her new baby boy. Thank you for your work at MIRU and with the EECV2 Trial. You will be missed and we eagerly await your return to MIRU next year. Meanwhile, enjoy your new full time job!

EECV2 TRIAL COORDINATION – Welcome new staff!!

We would like to welcome two new EECV2 coordinators, Ariadna Fernandez and Reena Gill.

- Ariadna will be located at UBC with Eileen Hutton, our Principal Investigator, and will be involved in the clinical coordination of the study.
- Reena will be located at MIRU and will be involved in the data coordination for the study.

Welcome aboard to both of you!
