Welcome to EECV2!

This month one more centre has joined us! We now have 70 collaborating centres! A very warm welcome goes out to:

- Dr JM du Plessis and Prof HS Cronje, University of Free State, Bloemfontein, SOUTH AFRICA

Recruitment Excellence!

This month we are recognizing centres with their **first** recruit – Congratulations to:

- Ms Carol Cameron, Ms Tara Peel and Ms Amy Fraser, Markham Stouffville Hospital, Markham, CANADA

Second Interim Analysis

We are very close to having all the data for the second interim analysis. If you still have any outstanding data forms or queries, please return them to us immediately. We greatly appreciate your cooperation and look forward to conducting the second interim analysis before the end of the year.

Recruitment Recognition – September Quarterly Draw!

Your recruitment efforts are imperative to the success of the EECV2 Trial. As you know, in order to recognise your work in recruiting for the trial we planned a quarterly draw for a small token of recognition. Every time your centre recruits a woman into the EECV2 Trial, your centre is entered into the draw. The more your centre recruits the greater your chance of getting the quarterly prize!

For this quarter we would like to congratulate Dr Jaime Saez, Hospital Clinico San Borja, Santiago, CHILE! Watch out for our next winner in the December newsletter!

Quote of the Month

Commitment leads to action. Action brings your dream closer.

Recruitment Ideas from our Mini Canadian Teleconference

We recently had a chance to speak with two of our newest Canadian centres via conference call and some great recruitment ideas were generated. Some of the ideas are applicable to those centres just starting up but we hope all of our active centres review the ideas to see if any would help at their centres for the last push to the end of recruitment!

- Set a launch date for the trial at your centre with a presentation to all of your Obstetricians, Midwives, Nurses and Ultrasound Personnel
- Hand out packages at the launch to your colleagues with a research summary of the trial, promotional items and how to contact you if they have a potentially eligible breech patient
- Set a local monthly recruitment goal and share it with everyone at your centre – plus check back and let them know how you are doing
- Create a file for each potential new recruit with a consent form, patient contact sheet and data forms so you have all the materials you need in one place when you have a potential woman to recruit
- Once you have recruited a woman, include a print out of a calendar in her file so you can plan and record when you need to schedule her ultrasounds, the ECV procedure and her anticipated delivery date. You can also keep track of when you spoke to the patient on this calendar.
- Put an EECV2 Sticker on a patient's hospital record so your colleagues know this woman is participating in the trial and to contact you when she delivers

Recruitment Milestones

Congratulations to Dr Greg K Davis and Ms Lynne Roberts from St George Hospital, Sydney, AUSTRALIA for recruiting the 1100th patient into the EECV2 Trial. We will be recognizing you with a special recruitment certificate. We are now nearing our next recruitment milestone – who will recruit our 1200th woman to the EECV2 Trial? We will send a certificate to acknowledge the centre that achieves this important milestone!
