MAC-5 START-UP PACKAGES

MACS-5 start up packages, containing data forms and promotional items, are being sent out to all centres who have returned their completed clinical study agreement (CSA) and ethics approval. Sites with patients due for the 5 Year Follow-up in 2006 and 2007 should complete the CSA and obtain ethics approval as soon as possible. This way we can send you the start-up package and you can prepare for the first 5 Year Follow-up Assessment at your centre.

THANK-YOU TO OUR COLLABORATORS IN ISRAEL

We appreciate the opportunity we had to meet with our collaborators in Tel Aviv, in June 2006. We were pleased to discuss the local organization of MACS-5 in Israel and also the continuation of the MACS 2 year follow-up. Meaningful discussions made for a successful meeting.

Toda raba (Thank you very much) 

SUCCESSES, IDEAS AND SUGGESTIONS ARE WELCOME

As MACS-5 begins, please feel free to share with us your successes and any challenges so we can all learn from each other. We would be delighted to hear from you.
