E-mail: macs@sw.ca Website: www.cmicr.ca

221 Follow-ups completed!

Congratulations to everyone,
we have achieved our
200th Complete Follow-up!!

To acknowledge your hard work, in coming
months we will provide a token of appreciation to
each site when they succeed in achieving the
following milestones:

25% Follow-up Complete

50% Follow-up Complete

75% Follow-up Complete

100% Follow-up Complete

We look forward to your continued enthusiasm as
you track the progression of follow-up at your
centre.

Please note we are updating the follow-up table and look
forward to including it in the next newsletter.

Same People, Same Study, New Name

As you may all know by now, our new name for
the MACS-5 Data Coordinating Centre is The
Centre for Mother, Infant, and Child Research.

Please note that although we have a new name,
we are the same team, located in the same
place, coordinating the same activities.

New Protocol With Our New Name

The new July 2008 Protocol has been distributed to all sites.
As the revision is very minor we do not anticipate that you
need to submit the new protocol for approval at your local
ethics board.

Attention Centres Who Have Not Yet Completed A CSA: New CSAs with Our New Name!

The MACS-5 Clinical Study Agreement (CSA) has been
updated to reflect our new name.

The updated study agreement has been distributed to
centres that have not yet begun the MACS-5 follow-up.
