## MACS-5 Is On The Horizon

---

### MACS-5 CLINICAL STUDY AGREEMENT AND ETHICS APPROVAL

We are pleased to be receiving the first clinical study agreements (CSA) and ethics approvals from sites that are preparing for MACS-5 in 2006. We encourage other sites to start on this approval process as soon as they have received the MACS-5 Information Package.

Please note that we need to receive the completed Clinical Study Agreement and your local Ethics Approval before we can send you the MACS-5 follow-up forms so that MACS-5 can begin at your site.

---

### MACS & MACS-5 COLLABORATORS' MEETING

We are looking forward to the first MACS & MACS-5 Collaborators' meeting in Tel Aviv. We look ahead to valuable discussions on the MACS-5 follow-up with our colleagues in Israel.

---

### KEEP IN CONTACT WITH MACS FAMILIES

Maintaining contact with MACS families is key for MACS-5. Please contact families and update their contact information at least twice a year during the time between the 2 yr and 5 yr follow-up.
