## 57 Follow-ups completed!

Keep up the great work! The follow-up of children who turned 5 in 2006 is at 77 %. As the end of 2007 draws near let us focus on completing the remaining follow-ups of children who turn 5 this year.

### MACS-5 Success = Maintaining Contact with families

As we strive for MACS-5 excellence it is important to remember that maintaining contact with MACS-5 families is very critical to the success of the study.

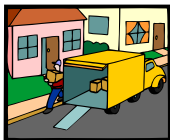

#### 4 Ways to Maintain Contact

Use MACS-5 contact reminders we send you to note which children have upcoming assessments.

Contact families every 6 months to ensure you have their correct contact information & remind them about the MACS-5 study.

If family moves frequently, get contact information of another relative for example, the grandparents.

Send MACS-5 birthday cards when child turns 4 years of age.
