*Thank you to the 105 centres who have sent letters of support for the proposed Twin Birth Study to date!*

*(Please see other side for list)*

We are pleased to report that the RCT outline application for the Twin Birth Study (TBS) has been approved by the Canadian Institutes for Health Research (CIHR)!

It was rated as outstanding!

This means we can now proceed to a full grant application to CIHR.

The deadline for submission of the full grant to CIHR is November 1st, 2002.

We expect to hear the decision from CIHR by Spring of 2003.

In the meantime we are fine-tuning the protocol and as soon as we have finished the revisions, we will be sending copies to our supporting sites for input and comments.

*Thank you for your support!  
We look forward to future collaboration*
