

HMB436H – MEDICAL AND VETERINARY MYCOLOGY, Fall 2017

INSTRUCTORS: Dr. James Scott and Dr. Richard Summerbell, Dalla Lana School of Public Health, Univ of Toronto
OFFICE: Gage Bldg, 223 College St
TEL: 416 946 8778
EMAIL: james.scott@utoronto.ca | rsummerbell@sporometrics.com

COURSE DESCRIPTION:

This lecture-based course will familiarize students with fungi of public health importance, particularly those that cause disease in humans and other animals. The course will focus on the population health implications, environmental risk factors, clinical presentation, pathophysiology, and treatment of fungal infections. The course will also cover aspects of the ecology, physiology and evolutionary biology of the agents responsible. The course will address other ways in which fungi influence human and animal health both in Canada and globally.

SCHEDULE AND TIMING:

The course will meet weekly W10–12 in Health Sciences Building (HS), 155 College Street, Rm 106. Sessions will be in lecture format.

TUTORIALS:

Three tutorials will be held to discuss and provide assistance with the assignments will be held in Rm 100 of the Gage Building at 223 College Street. Each tutorial will be repeated twice on different dates.

Topic	Date	Time
1: Basics of Wikipedia	Sept 13, 2017	6-8 pm
	Sept 20, 2017	6-8 pm
2: Researching and drafting your article	Oct 4, 2017	6-8 pm
	Oct 11, 2017	6-8 pm
3: Polishing and formatting your article	Nov 1, 2017	6-8 pm
	Nov 15, 2017	6-8 pm

PRE-REQUISITES:

4th yr; HMB265H1/BIO260H1

EXCLUSION:

BOT406H1

RECOMMENDED PREPARATION:

EEB268H1; EEB331H1/CSB353H1

2017 LECTURE SCHEDULE:

DATE	TOPIC
Sep 13, 2017	Topic: Fungal structure, function and phylogenetics Reading: FMM, Chapter 1
Sep 20, 2017	Topic: Physiology and ecology of fungi Reading: Nature 484: 186-194 (2012)
Sep 27, 2017	Topic: Poisonous mushrooms Reading: CMAJ 187:822–824 (2015)
Oct 04, 2017	Topic: Asthma, allergy and mould Reading: Journal of Allergy and Clinical Immunology: In Practice 4(3): 375-385 (2016)
Oct 11, 2017	Topic: White nose syndrome, amphibian chytridiomycosis, etc. Reading: none
Oct 18, 2017	<i>MIDTERM TEST</i> held from 10-12 in Health Sciences Building (HS) Rm 106
Oct 25, 2017	Topic: Dermatomycosis & superficial mycoses Reading: FMM, Chapter 21
Nov 01, 2017	Topic: Histoplasmosis & blastomycosis Reading: FMM, Chapter 6 and Chapter 4
Nov 08, 2017	NO CLASS SCHEDULED
Nov 15, 2017	Topic: Coccidioidomycosis & paracoccidioidomycosis Reading: FMM, Chapter 5 and Chapter 7
Nov 22, 2017	Topic: Aspergillosis, sporotrichosis, mucormycosis/zygomycosis & rhinosporidiosis Reading: FMM, Chapter 14, Chapter 9 and Chapter 17
Nov 29, 2017	Topic: Candidiasis & cryptococcosis Reading: FMM, Chapter 11 and Chapter 12
Dec 06, 2017	Topic: Medical mycology and population health Reading: Lancet Infectious Diseases (31-7-2017), doi: 10.1016/S1473-3099(17)30308-0

EVALUATION:

1. A mid-term test will held Oct 18, 2017 from 10–12 in the regular lecture room. It will cover all lecture materials discussed up to Oct 11, 2017. Although the content of the readings will not be covered specifically, you will probably not do well if you do not complete the readings. The test will be worth 30 % of your final mark and will be in multiple choice, true/false & short answer format.
2. You will be assigned an individual project to draft a Wikipedia article on a biomedically important fungus. More detailed information on this project is provided on the course website and in the course Wiki. The project overall is worth 35 % of your grade, and it is broken-up into 4 assignments as follows:
 - Assignment #1:** Wikipedia enrolment and training - **due Sept 15, 2017 at 23:59 UTC** (1 %)
 - Assignment #2:** Article outline and bibliography - **due Oct 13, 2017 at 23:59 UTC** (10 %)
 - Assignment #3:** Three peer reviews - **due Oct 27, 2017 at 23:59 UTC** (6 %)
 - Assignment #4:** Final article - **due Nov 17, 2017 at 23:59 UTC** (18%)
3. A final examination to be held at a place and time to be announced. It will count for 35 % of your final mark. All material covered in the lectures will be tested. The format of this examination will be a combination of short answer questions and brief case studies.

EXTENSION REQUESTS & PENALTY FOR LATE ASSIGNMENTS:

Even if you are not enrolled in the course yet, I expect you to complete assignments 1 & 2 on time! I will grade your assignments based on the last "save" date prior to the due date on the Wikipedia timestamp. Except for medical reasons in accordance with the HMB policy (on the HMB website) or in prior agreement with me at least 1 week in advance of the due date, I will not grade late assignments; however, even if you miss an assignment, you must complete it before the next one is due so that you stay on track.

ACADEMIC INTEGRITY:

The University of Toronto treats cases of academic misconduct very seriously. Academic integrity is a fundamental value of learning and scholarship at the UofT. Participating honestly, respectfully, responsibly, and fairly in this academic community ensures that your UofT degree is valued and respected as a true signifier of your individual academic achievement.

The University of Toronto's Code of Behaviour on Academic Matters outlines the behaviours that constitute academic misconduct, the processes for addressing academic offences, and the penalties that may be imposed. You are expected to be familiar with the contents of this document. Potential offences could include:

In papers and assignments:

- Using someone else's ideas or words without appropriate acknowledgement.
- Submitting your own work in more than one course.
- Making up sources or facts.
- Obtaining or providing unauthorized assistance on any assignment (this includes working in groups on assignments that are supposed to be individual work).

On tests and exams:

- Using or possessing any unauthorized aid, including a cell phone.
- Looking at someone else's answers.
- Letting someone else look at your answers.
- Misrepresenting your identity.
- Submitting an altered test for re-grading.

ACCESSIBILITY AND ACCOMODATION:

Students with diverse learning styles and needs are welcome in this course. In particular, if you have a disability/health consideration that may require accommodations, please feel free to approach me and/or Accessibility Services at 416-978-8060 or accessibility.utoronto.ca.
