*A Partnership of the University of Toronto, Ryerson University, and York University*
Message from the Academic Director

In 2009 the RDC Network submitted an application to the Social Sciences and Humanities Research Council and the Canadian Institutes of Health Research for a new five year operating grant. This application is a major undertaking that provides RDCs across the country an opportunity to plan long term. At the Toronto RDC, physical infrastructure has been an important consideration in this planning process. Our current lab space was constructed nearly ten years ago. At that time we had only a few staff members, and the numbers of projects and researchers could be counted in the 10s. Today the numbers of active projects and researchers are counted in 100s. The annual inflow of new projects is now equal to the stock of projects 10 years ago. As we have grown we have renovated. Offices have been split in two to house more staff. Many of you will have noticed our most recent construction, carving space for our administrative staff out of the Internet room. Further sub division is not possible so future growth of the RDC will require new space. We have started planning for this expansion. This is a long term but necessary project, because in the future our space constraints may limit the number of researchers who can work at the RDC.

In the following pages you will read of the Toronto RDC’s continued growth and success. Highlights include: the opening of the York University RDC branch in March 2009; a full house for the second year of the graduate course in panel data methods offered at the RDC; the continued high inflow of new projects and researchers to the RDC over the year; an uptick in new secondary projects that reflects an increase in the collaboration of researchers based in Toronto and at RDCs across the country.

As always, our success is due to the extraordinary efforts of our Statistics Canada and University of Toronto staff. On behalf of all our researchers I offer them our thanks.
Message from the Academic Director

Section 1: Background Information
  a. Toronto RDC Contact Information
  b. Toronto RDC Staff
  c. Toronto RDC Steering Committee
  d. Operation: Number of Workstations & Hours of Operation

Section 2: Summary of Criteria
  Criterion 1: Total Contracts and Total Number of Researchers
    a. Summary Table of Primary and Secondary Projects and Researchers by Calendar Year
    b. Summary of Active and Expired Projects
    c. Use of Data sets
  Criterion 2: Project Output Information
    a. Summary Table of Project Output Toronto RDC
    b. Summary Substantive Comments on Publications
    c. Summary Report on Major Media Coverage of RDC research
    d. Summary of Health Related Contracts
  Criterion 3: Toronto RDC Training and Employment
    a. Summary Table 2009
    b. Substantive Summary
  Criterion 4: Roles and Responsibilities of Toronto RDC Staff
    a. Summary Table 2009
    b. Substantive Summary
  Criterion 5: Toronto RDC Knowledge Mobilization Activities 2009
    a. Events in 2009
    b. Substantive Comments & Summary of Activities for 2009
    c. Summary of Types of Statistical & Methodological Topics
    d. Audiences
    e. Toronto RDC Newsletter
    f. Website
    g. Summary of Knowledge Mobilization, dissemination & communication
  Criterion 6: Scientific Innovation
  Criterion 7: Networks of Collaboration, Partnerships & Interdisciplinary Work
    a. Disciplines of Researchers involved in Toronto RDC projects
    b. Toronto RDC Researchers involved with Partnership Networks
    c. Collaboration with NGO's in RDC projects
    d. Partnership and leverage of funds
    e. Interaction with government researchers, federal and provincial contracts with university researchers
  Criterion 8: Summary of Major Objectives, Challenges and Achievements
  Criterion 9: Toronto RDC Annual Projections

The centre is open Monday to Friday from 9am to 6pm. The Toronto RDC has 25 lab workstations and 3 internet computers, one full-time and two part-time analysts, a part-time administrative assistant, a part-time research and computing consultant and a part-time manager, in addition to our Academic Director.

The Toronto Region Statistics Canada Research Data Centre (RDC) provides faculty and student researchers from the University of Toronto, York University and Ryerson University with direct access to master file data from a range of ongoing national surveys collected by Statistics Canada. The RDC is located on the 7th floor of Robarts Library on the University of Toronto campus.

RDCs are the only research facilities where researchers can link Canadian data on individuals longitudinally to study change over time. The RDC houses the master files from Statistics Canada's longitudinal surveys: the National Population Health Survey (NPHS), The Survey of Labour and Income Dynamics (SLID), the National Longitudinal Survey of Children and Youth (NLSCY), the Youth in Transition survey (YITS), the Workplace and Employee Survey (WES), the Canadian Community Health Survey (CCHS), and Longitudinal Survey of Immigrants (LSIC). Although the primary mission of the RDC is to make longitudinal surveys available to researchers in a secure environment, researchers may also submit proposals to access other cross-sectional Statistics Canada data files, e.g., the General Social Survey (GSS), the National Graduate Survey (NGS), and the Labour Force Survey (LFS), to name a few.

These data greatly enhance the position of Canadian behavioural and social science in the international discourse on a broad range of social, health, psychological and economic research issues. In addition, the increased access of academics to these data inevitably means a much broader base of evidence to inform and shape social policy in Canada in the future.

This enhanced access to Statistics Canada data is possible at the RDCs because they operate under the same security provisions as any other Statistics Canada office. This includes the use of physical access controls, an internally independent and secure computer network, and the vetting of output to ensure it complies with confidentiality policies. The RDC program works collaboratively with Data Liberation Initiative (DLI) to ensure that Statistics Canada survey data is used to the fullest extent possible.

</tbody>
</table>

The Toronto RDC had 78 new projects begin in 2009 with 51 primary and 17 secondary, for a total number of more than 10 over last year’s huge influx of projects, largely due to an increase in secondary projects (from 4 in 2008 to 17 in 2009). There were also a larger number of projects ending in 2009 (54 primary plus 5 secondary, for a total of 59 over last year's figure of 35).

A similar total number of researchers began in the RDC in 2009, as there were in 2008 (101 primary plus 26 secondary for a total of 127 in 2009, compared with 126 primary plus 6 secondary, for a total of 132 in 2008). Though, there was more than four times the number of secondary researchers starting in 2009 than in 2008. Also, close to double the number of primary researchers ended in 2009 (106, compared with only 58 in 2008).

The graph below shows the number of new contracts and researchers over the years of operation. The second line from the top illustrates the increase in new project activity for 2009. The top line illustrates the increase in new researchers for 2009. Although we had a peak level of activity in 2008, activity in 2009 is higher than any previous year to 2008.
FIGURE 1

![Figure 1: Toronto RDC New Contracts and Researchers](chart)

We seem to be maintaining the larger numbers of projects and researchers in 2009 initiated by the influx of 2008.

</table>
The RDC’s core holdings include the National Population Health Survey (NPHS), the Survey of Labour and Income Dynamics (SLID), the National Longitudinal Survey of Children and Youth (NLSCY), the Youth in Transition Survey (YITS), the Workplace and Employee Survey (WES), the Longitudinal Survey of Immigrants in Canada (LSIC) and the cross-sectional Canadian Community Health Survey (CCHS). In addition to the Toronto RDC’s core surveys, researchers with approved projects may also access other survey master files, such as the General Social Survey (GSS), as well as the Ethnic Diversity Survey (EDS), the Aboriginal People’s Survey (APS), the Residential Care Facilities Survey (RCFS) and the National Graduate Survey (NGS). Other data files include the Maternal Experience Survey (MES), The National Survey of Work and Health of Nurses (NSWHN), and the Canadian Internet Use Survey (CIUS).

The most popular surveys used by projects in 2009 include the CCHS, the NPHS, the NLSCY, CENSUS 2006, SLID, WES, CENSUS 2001 and LSIC; and by researchers in 2009 include the CCHS, NPHS, NLSCY, SLID, LSIC, WES, and CENSUS 2006.

Criterion 2: Project Output Information

The summary of project output was determined by researchers’ response to the request for output for 2009 (January to December, 2009).

a. Summary Table of Project Output Toronto RDC

The information in the output summary table comes from the researchers themselves, with the exception of the number of projects and theses completed and the events organized by the RDC staff. These are taken from the RDC database, the RDC analysts, and the RDC staff respectively. The response rate from researchers this year who responded to our request for output was almost 100% and included only those researchers with active projects within the last five years. The information in the table on health related projects was taken from the RDC database and includes all projects to date (n = 423).
b. Summary Substantive Comments on Publications

The strength of the research conducted in the Toronto RDC is evidenced by its quality and relevance. A large proportion of research is in the area of health, and the preferred method of publication is the refereed journal article. Reports from our researchers (approximately a 99% response rate) continue to reveal a steady flow of journal articles per year (27 in 2005, 22 in 2006, 32 in 2007, 29 in 2008, and 33 in 2009). For the most part these publications are in leading journals.

Looking forward to the next generation of researchers, students are the leading users of the Toronto RDC. Much of this use is research assistance, which provides students with training and an introduction to the RDC data. RDC data is also emerging as an important basis of students’ independent research: 1 M.A. thesis and 5 Ph.D. theses have come to completion during 2009. In addition, there are twenty doctoral and one masters level students with their theses in progress at the Toronto RDC.
c. Summary report on major media coverage of RDC research

In 2009, media attention from research completed at the Toronto RDC includes newspaper and radio coverage of Dr. Ernie Lightman’s research on “Health, Low Income, Earnings and Social Assistance in Canada, Ontario and Toronto: Research Findings and Policy Implications.” Three articles in the Toronto Star (“Report considers ways province can help solve chronic health problems affecting poor Ontarians” Feb 9th; “Study finds poor women not getting cancer screens” Feb 10th; and “The poverty-health link” an editorial, Feb 10th) and a national radio show interview with CBC’s “Metro Morning” on Feb 9th put Dr. Lightman’s RDC research front and centre. In fact, Dr. Lightman also produced a second policy report to the Toronto Wellesley Institute entitled “Sick and Tired: The Compromised Health of Social Assistance Recipients and the Working Poor in Ontario” and presented to numerous policy groups, such as the Ottawa Social Planning Council, the Community Social Planning Council of Toronto and the Ontario Public Health Association, as well as being featured in the First Canadian Health Care Conference (http://www.theconference.ca/index.php?/Poverty-is-Making-Us-Sick). Other RDC researchers reported local media coverage for their projects, such as Dr. Tony Fang with seven local television (OMNI) and news articles (such as Singtao Daily, York Region, The Province) reviewing findings from his project entitled “Changing Workplaces: portrait of the evolving workplace in Canada” with specific articles on “No help to immigrants” (The Province, September 13th, 2009) and “Career development doesn’t aid immigrants” and “Region to head off aging workforce woes” (from the York Region news, August 19, 2009; http://www.yorkregion.com/news/article/550680--region-to-head-off-aging-workforce-woes). Dr. Kevin Milligan, with Dr. Michael Baker, reported media attention in Stanford University’s “Stanford’s Social Innovation Review” that looked at their refereed article entitled “Universal Childcare, Maternal Labour Supply and Child Well-being” published the previous year in the Journal of Political Economy. Stanford’s article, written by A. Conner for their Winter 2009 edition, was entitled “Universal Care Hurt Quebec’s Kids.”

d. Summary of Health Related Contracts

<table>
<thead>
<tr>
<th>Category</th>
<th>Count</th>
<th>% of Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>Social Science</td>
<td>423</td>
<td>100</td>
</tr>
<tr>
<td>Significant Health Component</td>
<td>243</td>
<td>57.45</td>
</tr>
<tr>
<td>Less Dominant Health Component</td>
<td>19</td>
<td>4.49</td>
</tr>
<tr>
<td>Total Health Component</td>
<td>262</td>
<td>61.94</td>
</tr>
<tr>
<td>Total Number of Projects</td>
<td>423</td>
<td></td>
</tr>
</tbody>
</table>

As with the 2008 summary, Toronto RDC projects in 2009 are social science in nature, and a more than half (57%), have a significant health component.
Criterion 3: Toronto RDC Training and Employment

a. Summary Table 2009

<table>
<thead>
<tr>
<th>Academic Position</th>
<th>Thesis in Progress</th>
<th>Thesis Complete</th>
<th>Other Project</th>
<th>Other Responsibilities</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate</td>
<td>0</td>
<td>0</td>
<td>1</td>
<td>0</td>
</tr>
<tr>
<td>Masters</td>

<td>2</td>
</tr>
</tbody>
</table>

Notes:
1. Three doctoral student with other responsibilities, who are also analysts, Byron Lee, Angela Prencipe, and Carmina Ng, two of whom (Byron and Carmina) are also counted as doctoral students with thesis in progress.
2. Two employees, Tina Hotton Mahony (who was here for the first half of the calendar year) and Dave Haans, who also have research projects at the RDC.

b. Substantive Summary

Students have consistently been the top users of the Toronto RDC and are again in 2009. The table documents the high level of use by Ph.D. level students. In 2009 five Ph.D. theses were completed and another 20 are in progress. Furthermore, other doctoral students were participants on a further 25 projects. In terms of usage statistics, doctoral students are the leading users of the RDC in 2009 at 37.80%, while all students represent 55.79% or half of the usage time in 2009. These numbers are testament to the support and training opportunities that students can access at the Toronto RDC.

b. Substantive Summary

Analysts
Over 2009 the number of Statistics Canada analysts at the Toronto RDC varied slightly from 2.2 (1.6 plus .6 = 2.2 in January and February) to 2.4 (1.8 plus .6 = 2.4 in March) to 2.6 (in June) and back to 2.4 (in September) to accommodate one of our student flexible schedule, and our need for more analyst time when it could be afforded. We had two students for the first part of the year at 1.6, and one non-student at .6. In June, we lost our non-student (Tina Hotton) to a secondment at McMaster, and gained a doctoral student (Carmina Ng) who came in with 4 days a week or at a .8 FTE.

University employees
The Centre employed a .8 FTE research and computing consultant during 2009. We share an office manager with the University of Toronto’s Institute for Life Course and Aging and her Toronto RDC FTE was 0.45 for the entire year. Neither the consultant nor the office manager are students. Our part-time casual administrative staff is a student working approximately a .3 FTE (12 hours a week).

Criterion 5: Toronto RDC Knowledge Mobilization Activities 2009

a. Events in 2009

i) Introductory SAS Workshop

Dave Haans
RDC Consultant
Toronto Region Statistics Canada Research Data Centre
This workshop is open to current RDC researchers and is generally presented twice a year, in spring and fall. This workshop is meant to help current researchers at the RDC acquaint or re-acquaint themselves with the SAS programming language. In this workshop, the basics of the SAS programming language will be covered, including creating variables, reading in raw text files, modifying SAS data sets, and merging SAS data sets. Most recently, a section on group processing has been expanded and made much more interactive.

Thursday, April 9, 2009: 1:00pm to 4:00pm and
Tuesday, September 15, 2009: 1:00pm to 4:00pm
ii) CCHS 2.2 SIDE/Bootstrapping Workshop

Didier Garriguet  
Senior Research Analyst  
Health Statistics Division  
Statistics Canada

This workshop is a live tutorial on the use of Software for Intake Distribution Evaluation (SIDE) and the bootstrapping technique. The use of both of these macros will be demonstrated using data from the Canadian Community Health Survey 2.2 (CCHS 2.2). The use of SIDE will be demonstrated to estimate the prevalence of inadequacy of a few micronutrients in some age/sex groups in the population. Likewise, the bootstrapping technique will be demonstrated to estimate the standard errors associated with the prevalence estimates used in the SIDE workshop.

Wednesday September 30th and Thursday, October 1st, 2009

Wednesday: 1pm to 5pm - An overview of CCHS 2.2 (open to all RDC researchers)  
Thursday: 10am to 5pm - SIDE/Bootstrapping workshop (open to CCHS 2.2 researchers)

This talk is open to RDC Researchers only, and will be held in the Toronto Region Research Data Centre at 130 St. George Street, on the 7th Floor in Room 7032.

b. Substantive Comments and Summary of Activities for 2009

The Knowledge Mobilization events during 2009 took the form of training workshops on popular statistical software (SAS) and datasets and provide instruction in statistical methodologies for their analysis (CCHS). Our software workshops are a direct response to the fact that many students enter our RDC with good research ideas but needing support with their technical skills. The other workshops and lectures generally inform our communities of new opportunities for research at the Toronto RDC.

c. Summary of Types of Statistical and Methodological Topics Covered in Training Sessions

Presentations at the Toronto RDC have been generally informational in nature, describing research results or the contents of Statistics Canada surveys.

Presentations included instruction on how to generate bootstrapped estimates from the CCHS 2.2, a survey of Canadians’ food consumption with unique statistical characteristics necessitating complicated bootstrapping techniques. This presentation was conducted over two days by Didier Garriguet from Statistics Canada. On the first day, an overview of the CCHS 2.1 was presented to all interested RDC researchers. On the second day, the use of software called SIDE was overviewed and shown to those researchers needing to generate bootstrap estimates as part of their CCHS 2.2 analyses.

As well, the Department of Clinical Dietetics at The Hospital for Sick Children was generous in providing travel and lodging to Mr. Garriguet for him to conduct this workshop.

In 2009, formal training continued in the Toronto RDC with the teaching of SAS as an introductory topic for RDC researchers. Along with the basics of using this software, some longitudinal programming techniques germane to longitudinal analyses typically conducted in the RDCs are included.

The increase in project and researcher activity in the past two years has limited the time analysts and staff are able to allot to the organization of events, and subsequently, there were no other seminars or workshops this year.
d. Audiences

Presentations at the Toronto RDC for 2009 were comprised of RDC researchers and generally reflected the academic backgrounds of researchers here – graduate students, research assistants/associates/coordinators from various research organizations, and faculty. For example, the two day CCHS workshop held September 30th and October 1st at the RDC, included faculty and student researchers from York University, the Hospital for Sick Children and the University of Toronto, while the SAS workshops included mostly student researchers from the University of Toronto, OISE, the McMaster RDC (and McMaster University) and even the CRISP RDC in Moncton New Brunswick.

e. Toronto RDC Newsletter

The Toronto RDC newsletter is typically distributed twice a year to a diverse list of academics who are encouraged to forward it to interested parties. In 2009, the Toronto RDC’s newsletter was published in July, after completion of the Toronto RDC’s 2009 Annual Report. In 2009, rather than a text-based email with a link to the Toronto RDC website (as was done in previous years), the newsletter was in freshly written in HTML and was sent as a complete email that could be read in one’s email client or on one’s web-based email site. A link was provided to the newsletter on the Toronto RDC website if the receiver could not read the newsletter for whatever reason. This generated a short spike in visitors to the Toronto RDC website.

In addition to information on the RDC program, the Toronto RDC newsletter describes the data available for analysis, and the proposal submission process, advertisement of our public lectures, conference announcements, calls for papers, and funding opportunities for research using Statistics Canada micro-data.

f. Website

The Toronto RDC’s website URL is: http://www.utoronto.ca/rdc

The Toronto RDC’s website’s purpose is to give researchers and prospective researchers a clear overview of the Toronto RDC and what its purpose is, and provide helpful guidance and links to those who visit.

As well, the Hours web page at http://www.utoronto.ca/rdc/hours.html is updated regularly with vacation-related closings and changes to operating hours. The link to this page is given out when emails are sent to all researchers notifying them of changes to our normal operating hours or dates.

Visits to the Toronto RDC’s website have been tracked since May, 2006 using Google Analytics. In the calendar year 2009, the website received 4,355 visits, an increase of about 4% over 2008’s 4,193 visits. Per weekday, the Toronto RDC receives approximately 15-20 visits. “toronto rdc” was the search term used most often to locate the Toronto RDC’s website, indicating that many visitors to the website are looking for the Toronto RDC’s website and not finding it by accident. The bulk of visits (n= 3,696, 85%) come from Canada, with most of the international visits from the US (n= 273, 6%), and the remaining 9% of visits from a variety of countries (United Kingdom, Ireland, Australia, India, Germany, France, China, and Italy).

The Papers page of the website features an alphabetical and chronological list of a sample of published articles resulting from research at the Toronto RDC, including links to articles appearing in Statistics Canada publications such as Health Reports, Perspectives on Labour and Income, and Juristat, which are available for free on the Statistics Canada website. This list is currently being supplanted by the Canadian Research Data Centre Network’s bibliographic list of all published research by RDC researchers across the country. Once the CRDCN site’s bibliography is completed, the Papers page of the Toronto RDC website will link more closely to the CRDCN site (http://rdc-cdr.ca/database).

The website also contains a brief introduction to the Toronto RDC, links to the Toronto RDC’s partners, links to information about the data, links to the SSHRC application site, contact and location information, and a page highlighting the Toronto RDC’s computing and network resources.
It also offers researchers from York and Ryerson Universities the same broad information offered to University of Toronto researchers, including links to the partner university's data libraries and statistical consulting services.

g. Summary of Knowledge mobilization, dissemination and communication

The Toronto RDC regularly issues newsletters, organizes in-house and external presentations on behalf of Statistics Canada staff, RDC researchers and RDC staff. We also update our website regularly, and also distribute conference information, job postings and other information that is of interest to researchers and others interested in the Toronto RDC.

Criterion 6: Scientific Innovation

Due to the large number of projects handled by each of our analysts, there was little time in 2009 for scientific innovation or methodological advances. However, our analysts held focal point responsibilities for the Homicide Survey pilot project (Tina Hotton), the National Graduates Survey (Angela Prencipe), and the National Survey of Giving, Volunteering, and Participating (Byron Lee). In addition, Tina continued to work with the staff and methodologists of the Canadian Centre for Justice Statistics (CCJS) in the development and testing of new administrative data disclosure rules for the Homicide Survey pilot project. Carmina Ng holds the focal point for CCHS.

Criterion 7: Toronto RDC Networks of Collaboration, Partnerships in Research and Interdisciplinary Work

a. Disciplines of Researchers involved in Toronto RDC projects

Toronto RDC researchers come from a wide variety of disciplines. The leading sources (proportion of researchers) in 2009 are:

- Sociology, 14.5%
- Public Health, 11.8%
- Economics, 10.8%
- Psychology, 8.0%
- Health Science, 7.6%
- Health Policy, 6.9%
- Psychiatry, 5.3%
- Nutrition, 3.8%
- Geography, 2.5%
- Business, 1.3%

b. Toronto RDC Researchers involved with Partnership Networks

Toronto RDC researchers are members of a wide array of national and international partnerships, institutes and networks and hospitals, examples from 2009 include: Institute for Work and Health, Canadian Research Institute for Social Policy, Centre for Addiction and Mental Health (CAMH), Canadian Agency for Drugs and Technologies in Health, Canadian Association for Community Living, Canadian Labour Market and Skills Researcher Network, Ministry of Health and Long-Term Care, Toronto Western Hospital Research Institute, Centre of Excellence for Research on Immigration and Settlement (CERIS), St. Michael's Hospital, IHS Global Insight, Institute for Clinical Evaluative Sciences, and the University Health Network.
c. Collaboration with NGO's in RDC projects

To the best of our knowledge, IHS Global Insight is the only NGO with a researcher at the Toronto RDC in 2009. IHS Global Insight is a forecasting company that provides consulting advice to business, financial, and government organizations using a combination of expertise, models, data, and software to analyze trends and their impact in the government policy, industry and financial markets of countries around the world.

d. Partnership and leverage of funds

In calendar year 2009 researchers from a companies called Ecometrix, and Cantox, as well as researchers from government or other organizations such as WSIB and the Law Society of Upper Canada, and researchers from the Universities of Trent and UBC, paid for full or partial access to the Toronto RDC.

e. Interaction with government researchers, federal and provincial contracts with university researchers

The Toronto RDC opened its doors to a number of federally funded contracts with researchers, and in calendar year 2009 received paid access fees from eight HRSDC contracts. Also in 2009, there were an additional four fee contracts that paid access fees from various organizations (Ecometrix, Cantox, Upper Canada Law Society, and the Workplace Safety and Insurance Board), and 6 fee contracts paid by CLSRN. The list of 18 fee contracts, showing the research project titles for the calendar year 2009 appears below. (Note that for the financial report, HRSDC and other access fee contracts are counted by fiscal year, rather than calendar year, although all 18 below were from the calendar year 2009, one can see that 8 occurred during the fiscal year 2009, and that 10 occurred during the fiscal year 2010.)

</tbody>
</table>
Criterion 8: Toronto RDC Summary of Major Objectives, Challenges and Achievements

This year saw a continued increase in RDC projects and researchers. York University opened their branch of the Toronto RDC on March 2nd, 2009. The growth in projects at the branch has been beyond expectations. Research activity is approaching the level that would justify the York branch becoming a part time centre in its own right.

A graduate level course in panel data methods was offered at the RDC for the first time winter term of 2009, in cooperation with the School of Public Policy and Governance. Enrolment was 17 students (12 enrolled, 5 audits) drawn from SPPG and various graduate programs within the Faculties of Arts and Science, Medicine and Pharmacy. We subsequently reviewed the course and decided to offer it again in January 2010. Enrollment in the course is at capacity.

Physical renovations to the Internet room were conducted over the spring and summer of 2009. They established an administrative office for the use of the part-time administrative assistant and the office manager.

The Toronto RDC continued to make a number of significant contributions to the promotion and wellbeing of the RDC network in 2009:

1. Our Research and Computing Consultant, Dave Haans, continued to consult with the Canadian RDC Network (CRDCN) on their metadata project, the secure Wide Area Network (WAN) which connects Statistics Canada in Ottawa with the Toronto RDC and all other RDCs and branches in Canada.

2. Dave Haans also took on a project coordination role with the CRDCN to clean, update and complete references from research published by RDC researchers from all RDCs and branches across the country. The project has been in progress since May of 2009, and the ongoing results of that effort – which total almost 1,000 journal article, book, thesis, working paper and report references -- can be viewed and searched at http://rdc-cdr.ca/database.

3. Byron Lee, Toronto RDC Analyst, and Dave Haans aided in the setup of the York RDC, advising planners and York IT on Statistics Canada regulations, equipment requirements, security practices, IT policies, software purchases, possible problem areas, office layout, and best work practices. In addition, both Byron and Dave trained York RDC staff prior to the York RDC opening (on March 2, 2009).

4. Our manager, Susan Murphy, assisted in the liaison between the university, the CRDCN and the web bib team to manage the finances for stage one of the project.

5. Our Academic Director, Michael Baker, continues to serve on the executive committee of the National Coordinating Committee.

The Toronto RDC is dedicated to its strong core of established researchers who want access to RDC data. For these users our goal is to make data access as straightforward as possible. We also provide support through the maintenance and update of our facilities, and by publicizing the latest developments in our data and related statistical methodologies. We also have a large pool of new or potential users, many of whom are...
students. For these users our services include publicizing research opportunities using RDC data, instruction in the use of RDC data sets and statistical software, and forums for the critical discussion of research results.

Criterion 9: Toronto RDC Annual Projections

2010

The result of the RDC network’s application to SSHRC and CIHR for a new five year operating grant will be known at the end of May 2010. The amount of this award has substantive implications for the operation of the Toronto RDC, and we will review and adjust accordingly once the result is known. Regardless of the outcome, the new grant allocation mechanism adopted by the Network puts a high weight on research activity, which should benefit the Toronto RDC over the longer term.

Major decisions on physical infrastructure are due in the coming year. First, the computer facilities at the Centre are scheduled to be replaced. We face a choice of joining other RDCs across the country in a thin client system that takes advantage of the Network’s new secure intranet, or purchasing a new stand alone system. An advisory committee has been struck, drawn from RDC staff and steering committee members, to provide advice on this important decision.

Second, we are initiating a planning exercise for new space at the Toronto RDC. The existing space has been fully sub-divided and so any future growth must be facilitated by additional space. This is a complex process that involves negotiations with our host university and Statistics Canada. We must also secure funding to finance any new construction. Nevertheless, because any additional research activity must be matched by additional staff, as per the agreement with Statistics Canada, this process is necessary to the Toronto RDC’s future growth and success.

</table>
The department of Sociology in the Faculty of Arts and Science at the University of Toronto was by far the largest user in Year 9 with 3114 hours, more than twice the number of hours than any other department. The Faculty of Medicine’s department of Health Policy Management & Evaluation at the University of Toronto was the second largest user with 1445 hours. Then Economics in U of T’s Faculty of Arts and Science with 1321 hours, followed by U of T’s Dalla Lana School of Public Health in the Faculty of Medicine with 1045 hours. Nutritional Sciences was the next largest user with 833 hours.

Other users with hours between 100 and 500 include Ryerson University’s Centre for Voluntary Sector Studies (CVSS) with 104 hours, York University’s School of Health Policy and Management with 105 hours, as well as York’s department of Mathematics and Statistics with 175 hours, and York’s Department of Psychology with 323 hours.
FIGURE 2

Toronto RDC Use by Month: 2009
The Faculty of Arts and Science and the Faculty of Medicine are the two leading faculties, each at 35% of total usage for 2009. York University has decreased usage, from 12% in 2008 to 7% in 2009, although that is to be expected now that they have an established branch RDC on site. Ryerson University has decreased usage in 2009 (from 5% to 2%), however seems to have just as many researchers at the RDC. The examples of other university usage show the variety of collaborations and partnerships in research at the Toronto RDC as well as the breadth of usage and include the University of New Brunswick, McMaster University, University of Calgary, Trent University, Universite Paris 1 Pantheon-Sorbonne, and the Universities of Western Ontario, British Columbia, Windsor, and Guelph, as well as Utrecht University.
APPENDIX B

Product Output List at December 31st, 2009

Project 01--MCM-0015 -- Yuri Ostrovsky (PI), "A Study of Mobility and Tenure Transitions by the Elderly in Canada", NPHS, SLID.
Contract expiry date: February 1, 2003
Project status as of December 31, 2009: Transferred

Project 01-SSH-MCM-0026 -- Martin Schellhorn (PI), "The Effect of Health Shocks and Disability on the Retirement Decision", NPHS.
Contract expiry date: September 30, 2005
Project status as of December 31, 2009: Expired

Project 01-SSH-UTO-0034 -- Michael Baker (PI), "Public Policy and Child Care in Canada", NLSCY.
Contract expiry date: March 31, 2004
Project status as of December 31, 2009: Expired

- **Conference presentation using RDC data:** M. Baker (2008) Using Labour Market Policies to Learn about Child Development. , Ottawa ON.

Project 01-SSH-UTO-0047 -- Mark B Stabile (PI), "Socioeconomic Status, Educational Attainment and the Health of Children", NLSCY.
Contract expiry date: January 18, 2006
Project status as of December 31, 2009: Expired

- **Conference presentation using RDC data:** M. Stabile (2003) Socioeconomic Status and Child Health: Why is the Gradient Steeper for Older Children? 2003 Meetings of the American Economic Association,.
- **Conference presentation using RDC data:** M. Stabile (2004) Socioeconomic Status and Child Health: Why is the Gradient Steeper for Older Children? National Bureau of Economic Research Health Care Meetings,.

Project 01-SSH-UTO-0052 -- Peggy McDonough (PI), "A Life Course Approach to the Social Determinants of Health", NPHS.
Contract expiry date: December 31, 2006
Project status as of December 31, 2009: Expired

**Project 01-SSH-UTO-0053** -- Catherine A Deri (PI), "Social Networks, Health Status and Health Service Utilization", NPHS.
Contract expiry date: May 31, 2005
Project status as of December 31, 2009: Expired

• **Conference presentation using RDC data**: C. Deri (2002) Canadian Health Economics Association Meetings, Halifax, NS.

• **Conference presentation using RDC data**: C. Deri (2002) Canadian Health Economics Association Meetings, Calgary, AB.

• **Conference presentation using RDC data**: C. Deri (2003) Canadian Health Economics Association Meetings, Ottawa, ON.

• **Conference presentation using RDC data**: C. Deri (2003) Statistics Canada Research Data Center Conference, Hamilton, ON.

**Project 01-SSH-UTO-0055** -- Vincent Hildebrand (PI), "Pension Portability and Labour Mobility: Evidence from Canadian Micro-data", SLID.
Contract expiry date: December 31, 2004
Project status as of December 31, 2009: Expired

**Project 01-SSH-UTO-0062** -- Joanna E Cohen (PI), "Cigarette Price and Smoking Behaviours in Canadian Provinces", NPHS.
Contract expiry date: July 31, 2006
Project status as of December 31, 2009: Expired

**Project 01-SSH-MCM-0063** -- Sunghee Jeon (PI), "A longitudinal perspective on women's labour force transitions: trigger events", SLID.
Contract expiry date: December 31, 2003
Project status as of December 31, 2009: Transferred

**Project 01-SSH-UTO-0066** -- Jane B Sprott (PI), "The development of a school bond: differences and similarities for early aggressive children compared to other children", NLSCY.
Contract expiry date: August 1, 2004
Project status as of December 31, 2009: Expired

Project 01-SSH-UTO-0068 -- Linda Lee (PI), "The Effect of Self-Employment on the Family", NLSCY.
Contract expiry date: October 31, 2005
Project status as of December 31, 2009: Expired

Project 01-SSH-UTO-0070 -- Leslie Robb (PI), "The Economic Legacy of Divorced and Separated Women in Old Age", SCF, SLID.
Contract expiry date: March 1, 2004
Project status as of December 31, 2009: Transferred

Project 01-SSH-UTO-0078 -- Marcia H Rioux (PI), "The Geography of Canadian Literacy and Disability", HALS, IALS, NPHS.
Contract expiry date: June 30, 2003
Project status as of December 31, 2009: Expired

- **Conference presentation using RDC data:** M. Rioux and E. Kubrow (2003) Presentation to a special session in Ottawa with participants from 4 government departments to give a presentation on the study., Ottawa, ON.

Project 02-HSD-UTO-0085 -- Nicole Riley (PI), "Injuries and dependence in Canada’s elderly population: Measures of risk from the NPHS longitudinal file", NPHS.
Contract expiry date: December 31, 2003
Project status as of December 31, 2009: Expired

Project 02-ISD-UTO-0086 -- William Magee (PI), "Research Theme: Do Poor Health and Disability increase the hazard of Job Separation?", SLID.
Contract expiry date: October 31, 2003
Project status as of December 31, 2009: Expired

Project 02--UTO-0087 -- Jenny Jenkins (PI), "Stability in Child Aggression and Effects of Transition to School", NLSCY.
Contract expiry date: December 31, 2003
Project status as of December 31, 2009: Cancelled

Project 02--UTO-0088 -- Jenny Jenkins (PI), "Changes in Parenting and Changes in Child Aggression", NLSCY.
Contract expiry date: December 31, 2003
Project status as of December 31, 2009: Expired

Project 02--UTO-0089 -- Jenny Jenkins (PI), "Sibling relationships and changes in child aggression", NLSCY.
Contract expiry date: April 30, 2004
Project status as of December 31, 2009: Expired
Project 02--UTO-0090 -- Jenny Jenkins (PI), "Factors associated with disordered eating patterns in early adolescence", NLSCY.
Contract expiry date: April 30, 2004
Project status as of December 31, 2009: Expired

Project 02--UTO-0091 -- Nancy Young (PI), "The validity of HUI3 (provisional version) in the NLSCY and NPHS data and to explore alternative aggregation methods to improve the accuracy of health status estimates generated from these data.", NLSCY, NPHS.
Contract expiry date: March 31, 2003
Project status as of December 31, 2009: Expired

Project 02--UTO-0092 -- Amy Cheung (PI), "Predicting Emotional Distress in Family Caregivers: Analysis of the Longitudinal National Population Health Survey Data", NPHS.
Contract expiry date: July 31, 2002
Project status as of December 31, 2009: Expired

Project 02-SSD-UTO-0094 -- Alice Charach (PI), "Methylphenidate (Ritalin) Use in Canadian Children", NLSCY.
Contract expiry date: October 31, 2009
Project status as of December 31, 2009: Expired

- Conference presentation using RDC data: A. Charach (2005) Evaluating The Hyperactivity / Inattention Sub-Scale Of The National Longitudinal Survey Of Children And Youth (NLSCY). Grand Rounds, Department of Psychiatry, Hospital for Sick Children, Toronto, ON.

Project 02-SSD-UTO-0095 -- Teresa To (PI), "Health, Social, and Environmental Determinants for Developmental Attainment in Youth Children in Canada", NLSCY.
Contract expiry date: October 1, 2002
Project status as of December 31, 2009: Expired

Project 02-SSD-UTO-0096 -- Teresa To (PI), "The relationship between body mass index and asthma in Canadian Children", NLSCY.
Contract expiry date: October 1, 2002
Project status as of December 31, 2009: Expired

• Conference presentation using RDC data: T. To and T. Vydykhan and S. Dell (2001) Body Mass Index and Asthma in Canadian Children Aged 4-11. The Hospital for Sick Children, Research Institute Retreat, Toronto, ON.

Project 02-SSH-UTO-0099 -- Jenny Jenkins (PI), "Developmental Trajectories of children in high-risk environments", NLSCY.
Contract expiry date: December 31, 2006
Project status as of December 31, 2009: Expired

• Conference presentation using RDC data: T. Jenkins (2003) Shared effects: Understanding the influence of high-risk environments. , Tampa, FL.

Project 02-SSH-UTO-0100 -- Michael Smart (PI), "Smoking, Taxation, and the health of children", NLSCY.
Contract expiry date: March 1, 2004
Project status as of December 31, 2009: Cancelled

Project 02-HSD-UTO-0103 -- Blair Wheaton (PI), "Ethno-Racial Differences in Mental Health: A Comparison of East Asians, South Asians, Blacks and Whites", NPHS.
Contract expiry date: July 31, 2004
Project status as of December 31, 2009: Transferred

Project 02-HSD-UTO-0105 -- Elizabeth Badley (PI), "Determinants of changes in self-reported health", NPHS.
Contract expiry date: December 31, 2002
Project status as of December 31, 2009: Expired

Conference presentation using RDC data: J. D. Power and A. V. Perruccio and E. M. Badley (2005) Stress, depression and pain as mediators between chronic conditions and sleep problems., Toronto.

Project 02-HSD-UTO-0107 -- Cameron Mustard (PI), "Mental Health Disorder, Treatment and Work Disability in the NPHS (no Ontario OHIP)", NPHS. Contract expiry date: September 30, 2004 Project status as of December 31, 2009: Expired

Project 02-HSD-UTO-0108 -- Cameron Mustard (PI), "Alcohol Use and Work Disability in the NPHS", NPHS. Contract expiry date: September 30, 2004 Project status as of December 31, 2009: Expired

Project 02-HSD-UTO-0109 -- Cameron Mustard (PI), "Prevalence and Determinants of Work-related Injuries among Young Workers", NLSCY, NPHS. Contract expiry date: September 30, 2004 Project status as of December 31, 2009: Expired

Project 02-HSD-UTO-0110 -- Cameron Mustard (PI), "Underemployment/Contingent Work, the Contraction of the Social Safety Net and their Impact on Self-reported Health Status in a Cohort of Canadian Adults: Analysis of SLID and the NPHS", CCHS 1.1, NPHS, SLID. Contract expiry date: September 30, 2004 Project status as of December 31, 2009: Expired

**Project 02-HSD-UTO-0111** -- Cameron Mustard (PI), "Unemployment, Job Characteristics and Self-reported Health Status and Disability in a Cohort of Canadian Adults, a Cohort of American Adults, a Cohort of German Adults, and a Cohort of Swedish Adults", SLID.
Contract expiry date: September 30, 2004
Project status as of December 31, 2009: Expired

**Project 02-HSD-UTO-0112** -- Cameron Mustard (PI), "The impact of Socio-economic Status and Labour-market experiences on Transitions into Work Disability for a Cohort of Canadian Adults: Analysis of the SLID and the NPHS", NPHS, SLID.
Contract expiry date: September 30, 2004
Project status as of December 31, 2009: Expired

- **Conference presentation using RDC data:** J. D. Pole and C. A. Mustard and D. C. Cole (2003) The longitudinal association of asthma, back problems and depression: Is there a common underlying mechanism? Canadian Society for Epidemiology and Biostatistics, Halifax, NS.

**Project 02-HSD-UTO-0113** -- Cameron Mustard (PI), "Labour market experiences and mortality in the NPHS 1994-2000", NPHS.
Contract expiry date: September 30, 2004
Project status as of December 31, 2009: Expired

**Project 02-HSD-UTO-0114** -- Cameron Mustard (PI), "Work Stressors in 1994/5 as Predictors of RSI in 96/7 among the Canadian working population", NPHS.
Contract expiry date: September 30, 2004
Project status as of December 31, 2009: Expired

- **Conference presentation using RDC data:** S. A. Ibrahim and C. McLeod and D. C. Cole and H. S. Shannon (2002) The impact of work stressors on health care utilization. World Congress of Epidemiology, Montreal, QC.

- **Conference presentation using RDC data:** S. A. Ibrahim and C. B. McLeod and D. C. Cole and H. S. Shannon (2003) Psychosocial and Physical Job Characteristics and Subsequent Health Care Use: A Prospective Cohort Study of Canadian Workers. Presented at CIHR/IHSPR conference in Montreal, Montreal, QC.

- **Conference presentation using RDC data:** S. Ibrahim and C. G. Hepburn and D. C. Cole and M. S. Kerr (2003) Work Stressors and Mental Health: A Longitudinal Analysis of the National Population Health Survey (NPHS), Halifax, NS.
Project 02-HSD-UTO-0115 -- Cameron Mustard (PI), "Unemployment and Health in a Cohort of Canadian Adults and a cohort of American Adults", NPHS.  
Contract expiry date: September 30, 2004  
Project status as of December 31, 2009: Expired

Project 02-SSH-UTO-0118 -- Teresa To (PI), "Childhood Asthma and Long-Term Outcomes: A Longitudinal Assessment", NLSCY.  
Contract expiry date: September 30, 2004  
Project status as of December 31, 2009: Expired

- **Conference presentation using RDC data:** S. Dell and T. To and M. Tassoudji (2003) Breastfeeding is Protective Against Asthma and Wheeze in Canadian Children Under Age Six. presented at the American Thoracic Society, Seattle, WA.
- **Conference presentation using RDC data:** T. To and M. Tassoudji and S. Dell (2003) Health Status and Health Outcomes of Children with Reported Asthma - Results from a Population-Based Prospective Study American Thoracic Society's 99th International Conference., Seattle, WA.

Project 02-ISD-UTO-0129 -- Anil Verma (PI), "Immigration, Ethnic Diversity and Labour Unions in Canada", SLID.  
Contract expiry date: August 31, 2002  
Project status as of December 31, 2009: Expired

Project 02-SSH-UTO-0133 -- Kathleen K Rybczynski (PI), "Self-Employment in Canada: How are Women Faring?", SLID.  
Contract expiry date: December 31, 2005  
Project status as of December 31, 2009: Transferred

Project 02-SSH-UTO-0135 -- Katreena Scott (PI), "Comparison of Outcomes for Children in the Better Beginnings, Better Futures Program to Representative National and Provincial from the NLSCY", NLSCY.  
Contract expiry date: June 30, 2003  
Project status as of December 31, 2009: Expired

Project 02-SSH-UTO-0137 -- Peri Ballantyne (PI), "Profiles and Patterns in Overall Drug Use by Canadian Seniors Using Self-report data from the NPHS", NPHS.
Contract expiry date: July 31, 2005
Project status as of December 31, 2009: Expired

• **Conference presentation using RDC data:** P. Ballantyne (2002) Examining Overall Use of Medicines by Elderly Ontarians. , Toronto, ON.

• **Conference presentation using RDC data:** P. Ballantyne (2002) Use and Non-use of Medicines by Ontario Seniors: Lessons for Clinical Practitioners and Other Health Advocates. , London, ON.

• **Conference presentation using RDC data:** P. Ballantyne (2002) The Sociology of Prescription, Non-prescription and &quote;Alternative&quote; Medicine Use Among the Elderly: A Program of Research based on National Population Health Survey Self Report Data. , Toronto, ON.

• **Conference presentation using RDC data:** P. J. Ballantyne (2002) Overall Use of Medicines by Seniors in Ontario. , Montreal, QC.

Project 02-SSH-UTO-0138 -- Wayne Corneil (PI), "Health Status of Executives in the Federal Public Service", NPHS, WES.
Contract expiry date: .
Project status as of December 31, 2009: Cancelled

Project 02-SSH-UTO-0144 -- Shek-wai Hui (PI), "The U.S./Canada Difference in Postsecondary Educational Choice", SLID.
Contract expiry date: June 30, 2003
Project status as of December 31, 2009: Transferred

Project 02-SSH-MCM-0145 -- Michael Boyle (PI), "The impact on child health and development of socioeconomic disadvantage measured in different contexts", NLSCY.
Contract expiry date: January 31, 2005
Project status as of December 31, 2009: Transferred

Project 02-SSH-BCI-0147 -- Christopher Zatzick (PI), "High Performance Work Practices, Workplace Performance, Downsizing and Employee Well-Being", WES.
Contract expiry date: December 31, 2006
Project status as of December 31, 2009: Expired

• **Conference presentation using RDC data:** T. Fang and S. Wald (2008) The Overeducation of Immigrants in the Canadian Labour Market: Evidence from the Workplace and Employee Survey. 2008 Canadian Industrial Relations Annual Conference, Vancouver, BC.

**Project 02-SSH-UTO-0165** -- Mark B Stabile (PI), "Self-reported Health Measures and Labor Market Behaviour", CCHS 1.1, NPHS.
Contract expiry date: July 31, 2004
Project status as of December 31, 2009: Cancelled

**Project 02-SSH-UTO-0172** -- Mina Singh (PI), "Differences in the Gender Gap of Canadian Students on the Reading Scores of the Programme for International Student Achievement (PISA)", PISA, YITS.
Contract expiry date: June 30, 2004
Project status as of December 31, 2009: Expired

• **PhD Dissertation:** M. D. Singh (2005) Investigating The Prediction Of Item Difficulty And Bias By Gender In Reading Literacy. Department Of Curriculum, Teaching And Learning, Toronto, ON: Ontario Institute For Studies In Education at the University of Toronto.

**Project 02-HSD-UTO-0181** -- Susan Fitzgibbon (PI), "Economic, demographic, support and health determinants of residential mobility and mobility outcomes among Canada's elderly, 1994-1999", NPHS.
Contract expiry date: August 29, 2003
Project status as of December 31, 2009: Expired

**Project 02-SSH-UTO-0188** -- Lori Curtis (PI), "Changing Times in Canada: Are there sex differences in health status and are they converging or diverging over time with changing trends in labour, social and economic roles of men and women?", FAMEX, GSS CYCLE 01, GSS CYCLE 06, NPHS, SCF.
Contract expiry date: .
Project status as of December 31, 2009: Cancelled

**Project 02-HSD-UTO-0195** -- Whitney Berta (PI), "Operational Efficiencies in Long-Term Care Facilities in Ontario", RCFS.
Contract expiry date: March 31, 2004
Project status as of December 31, 2009: Expired

**Project 02-SSH-UTO-0196** -- Karen MacCon (PI), "The impact of peer social support and family cohesion on early adolescent's symptomatology during the transition to high school", NLSCY.
Contract expiry date: December 31, 2003
Project status as of December 31, 2009: Expired

**Project 02-SSH-UTO-0199** -- Curtis Breslin (PI), "Work Injuries among Canadian workers: Is There an Inverse Relationship with Age?", CCHS 1.1.
Contract expiry date: July 31, 2004
Project status as of December 31, 2009: Expired

• **Conference presentation using RDC data:** F. C. Breslin and P. Smith (2003) How do the provinces compare? Self-reported work injury rates for youth and adults in the Canadian Community Health Survey. , Montreal, QC.

• **Conference presentation using RDC data:** F. C. Breslin and P.M. Smith and C.A. Mustard and J. Etches (2004) Regional variation in work and nonwork injuries among Canadian adolescents. 7th World Conference on Injury Prevention and Safety Promotion, Vienna, Austria.

---

**Project 02-HSD-UTO-0202** -- Susan E Schultz (PI), "Responsiveness of the Health Utility Index", NPHS.

Contract expiry date: September 30, 2002
Project status as of December 31, 2009: Expired

• **Refereed article:** J. A. Kopec and S. E. Schultz and V. Goel and J. I. Williams (2001) Can the Health Utilities Index Measure Change? *Medical Care, 39*(6), 562 - 574.

---

**Project 02-SSH-UTO-0211** -- Harry Krashinsky (PI), "Self-employment Trends in Canada", SLID.

Contract expiry date: April 30, 2004
Project status as of December 31, 2009: Cancelled

---

**Project 02-SSH-UTO-0216** -- Sule Alan (PI), "Precautionary Saving and Portfolio choice: Evidence from Canada", CADS, SFS, SLID.

Contract expiry date: January 31, 2005
Project status as of December 31, 2009: Transferred

---

**Project 03-SSH-UTO-0227** -- William Gnam (PI), "The Impact of Alcohol Dependence on Labour Market Outcomes", CCHS 1.1, CCHS 1.2.

Contract expiry date: June 30, 2005
Project status as of December 31, 2009: Expired

Project 02-SSH-MCM-0229 -- Paul Grootendorst (PI), "Dynamics in prescription drug cost sharing and use of prescription drug use evidence from the longitudinal 2000-01 National Population Health", NPHS.
Contract expiry date: March 31, 2005
Project status as of December 31, 2009: Expired

Project 02-SSH-UTO-0230 -- Ernie Lightman (PI), "Pre and Post welfare employment, earnings and income trajectories", SLID.
Contract expiry date: May 31, 2007
Project status as of December 31, 2009: Expired

Project 02-SSH-UTO-0234 -- Lisa Strohschein (PI), "Socioeconomic differences in child health - NLSCY", NLSCY.
Contract expiry date: April 30, 2004
Project status as of December 31, 2009: Expired

Project 02-SSH-UTO-0237 -- Elizabeth Badley (PI), "Determining the impact of arthritis and other chronic and disabling conditions on the health of Canadians: A cross-sectional and longitudinal approach", CCHS 1.1, NPHS.
Contract expiry date: June 30, 2005
Project status as of December 31, 2009: Expired

- **Conference presentation using RDC data:** A. Perruccio (2001) The Impact of Arthritis in Canada: Preliminary Findings from the NPHS and CCHS., .

• **Conference presentation using RDC data**: A. V. Perruccio and J. D. Power and E. M. Badley (2007) *Ranking of Age- and Sex-Specific Population Associated Fraction of Arthritis and Fibromyalgia Across Two Health Outcomes*. Statistics Canada RDC Analysts' Projects:

Toronto RDC Media List at December 31, 2009

Project 01-SSH-UTO-0034 – Michael Baker (PI), “Public Policy and Child Care in Canada”, NLSCY
Project status as of December 31, 2009: Expired.
The paper from this project received extensive media coverage in February 2006 as a result of a CD Howe media brief that summarized its results.

Contract expiry date: July 31, 2006.
Project status as of December 31, 2009: Expired.

Project 01-SSH-UTO-0066 – Jane Sprott, “School Climate and its Effects on Delinquency”, NSLCY.
Contract expiry date: August 1, 2004.
Project status as of December 31, 2009: Expired.
  - Media Coverage: In SSHRC’s annual review of the research it sponsors, my research on this general topic was highlighted. They have fielded many media calls and sent some on to me, though I do not typically keep track of all the newspaper interviews I do. About a month ago SSHRC gave me a summary of everywhere my research had appeared in the media, but I unfortunately did not keep that email. You may be able to contact SSHRC and ask them for their media list on my work.

Project 01-SSH-UTO-0078 – Marcia Rioux & Ezra Zubrow, “The Geography of Canadian Literacy and Disability”, HALS, IALS, NPHS.
Contract expiry date: June 30, 2003.
Project status as of December 31, 2009: Expired.

Contract expiry date: December 31, 2006.
Project status as of December 31, 2009: Expired.

Contract expiry date: June 30, 2005.
Project status as of December 31, 2009: Expired.
