Sixth Annual Report

2006-2007

May/June 2007
Academic Director's Introductory Comments

The Toronto Research Data Centre is part of a network of 15 RDCs that span the country from the University of British Columbia to Dalhousie University. Some of these centres have branches at smaller universities nearby. Together the network provides access to the various RDC data sets to a very geographically dispersed group of researchers.

The academic directors of these centres meet regularly to develop network level operating rules and procedures, discuss issues of common concern and promote the needs of our users at the national level. These network level initiatives have had considerable success. All RDCs receive operating funds from network grants from SSHRC and CIHR. Over the past year the network has won a four year, four million dollar grant from the Canadian Foundation for Innovation to fund the capital needs of the centres and branches. As a result of network advocacy, Statistics Canada has agreed to place confidential versions of Canadian census microdata files in the RDCs over the coming years.

In reviewing the many accomplishments of the Toronto RDC documented in the following pages it is important to acknowledge these important contributions. The Toronto RDC is a very active member of the RDC network whose activities are promoting research in health, education and social science research at Ryerson University, the University of Toronto and York University.

About the RDC

The Toronto Region Statistics Canada Research Data Centre (RDC) provides faculty and student researchers from the University of Toronto, York University and Ryerson University with direct access to master file data from a range of ongoing national surveys collected by Statistics Canada. The RDC is located on the 7th floor of Robarts Library on the University of Toronto campus.

RDCs are the only research facilities where researchers can link Canadian data on individuals longitudinally to study change over time. The RDC houses the master files from Statistics Canada’s longitudinal surveys: the National Population Health Survey (NPHS), The Survey of Labour and Income Dynamics (SLID), the National Longitudinal Survey of Children and Youth (NLSCY), the Youth in Transition survey (YITS), the Workplace and Employee Survey (WES), the Canadian Community Health Survey (CCHS), and Longitudinal Survey of Immigrants (LSIC). Although the primary mission of the RDC is to make longitudinal surveys available to researchers in a secure environment, researchers may also submit proposals to access other cross-sectional Statistics Canada data files, e.g., the General Social Survey (GSS), the National Graduate Survey (NGS), and the Labour Force Survey (LFS), to name a few.

These data greatly enhance the position of Canadian behavioural and social science in the international discourse on a broad range of social, health, psychological, and economic research issues. In addition, the increased access of academics to these data inevitably means a much broader base of evidence to inform and shape social policy in Canada in the future.

This enhanced access to Statistics Canada data is possible at the RDCs because they operate under the same security provisions as any other Statistics Canada office. This includes the use of physical access controls, an internally independent and secure computer network, and the vetting of output to ensure it complies with confidentiality policies. The RDC program works collaboratively with Data Liberation Initiative (DLI) to ensure that Statistics Canada survey data is used to the fullest extent possible.
TORONTO RDC STAFF: 2006-2007

Michael Baker  
*Academic Director*

Susan Murphy  
*Administrative Assistant*

David Haans  
*Research and Computing Consultant*

Angela Prencipe  
*Statistics Canada Data Analyst*

Byron Lee  
*Statistics Canada Data Analyst*

Tina Hotton  
*Statistics Canada Senior Analyst, on maternity leave*

Heidy Morales  
*Statistics Canada Administrative Assistant, (left April 2007)*

The Toronto RDC has 25 lab workstations and 5 internet computers, two full-time analysts, an administrative assistant (formerly called an extended hours employee), a full-time research and computing consultant and a part-time administrator, in addition to our Academic Director. Our administrative assistant, Heidy Morales, who had also helped with the extended hours of the Centre, left her RDC position at the end of April, and is not currently being replaced.

The Toronto RDC is advised by a Steering Committee, comprised of partner members from York and Ryerson Universities, a member of the Robarts Library at U of T where the RDC is housed, a member of the Data Library at U of T, RDC researchers from education, social science, and health faculties, and all of the RDC staff named above.
TORONTO RDC SIXTH YEAR REPORT HIGHLIGHTS

- The Toronto RDC now provides data access to individuals and government organizations in the region external to the RDC network. These projects are approved by the SSHRCC and Statistics Canada reviewers following normal procedures. Beginning in the early fall of this year, a total of five of these contracts have been initiated with the Toronto RDC.

- The Toronto RDC maintains the greatest number of projects nationally. A summary of all projects produced by the RDC Program Manager, Dr. Gustave Goldmann, at the recent National meeting of the RDCs in London in April, shows Toronto holds 21% of all projects across the RDC network, followed by the Quebec RDC system that holds 19%.

- The Toronto RDC is now accessible for researchers with physical challenges, through the installation of three automatic door openers and three height adjustable tables in different areas of the Centre (the main lab, the internet room, and the work room). These renovations were completed with the support of the Dean of Arts and Science, the ZOOM fund and the Institute for Work and Health.

- Graduate student use of the RDC still accounts for more than half of the total activity (57.35%).

- Researchers from the faculty of Medicine at the University of Toronto are again the largest users of the RDC; their time totalled 3,778 hours, or 41.76% of the total usage.

- In the fall of 2006 the RDC network was awarded a new 4 year, 4 million dollar grant from the Leading Edge Fund of the Canada Foundation for Innovation. These monies will be used for capital projects including the installation of a secure intranet across all centres and branches within the RDC network and the renewal of computers systems at all RDCs.
Updates

Funding
The RDC National Coordinating Committee’s grant application to the Leading Edge Fund of the Canada Foundation for Innovation (CFI) was successful, resulting in a 4 year, 4 million dollar grant that will be used for various capital projects. These projects include the installation of a secure intranet across all centres and branches in the RDC network. The intranet will considerably speed communication within the network and in the longer term lead to a more efficient distribution of network resources. Another project is the renewal of all network computing systems in the final year of the grant.

The RDC network’s operations are funded in part by a 5 year grant from SSHRCC and CIHR. Very recently SSHRCC decided to increase their annual contribution to this grant to 1 million dollars, which brings the total annual funds from this source to 1.6 million dollars. These funds are distributed to the various RDCs within the network. As a result of the change in the Toronto centre’s allocation of these funds we now project a net balance in our financial operations for years six and seven; as opposed to a net loss, which we experienced in years three, four and five.

Data Holdings
The RDC’s core holdings include the National Population Health Survey (NPHS), the Survey of Labour and Income Dynamics (SLID), the National Longitudinal Survey of Children and Youth (NLSCY), the Youth in Transition Survey (YITS), the Workplace and Employee Survey (WES), the Longitudinal Survey of Immigrants in Canada (LSIC) and the cross-sectional Canadian Community Health Survey (CCHS). In addition to the Toronto RDC’s core surveys, researchers with approved projects may also access other survey master files, such as the General Social Survey (GSS), as well as the Ethnic Diversity Survey (EDS), the Aboriginal People’s Survey (APS), the National Private Vehicle Use Survey (NPVUS), and the Survey of Financial Security (SFS).

Contributions to the Network
The Toronto RDC makes major contributions to the operation of national network of RDCs across the country. Some highlights from the past year are:

1. The Toronto RDC has created an Intranet website which can be used by other RDCs across the country to help inform researchers about issues with datasets, provide them with information and additional documentation about their software, and even maintain an electronic library featuring useful papers such as the Research Data Centres Information and Technical Bulletins. The Intranet was developed in collaboration with the Intranet Committee comprised of Analysts from other RDCs, led by James Chowhan from the McMaster RDC.

2. The Toronto RDC’s Research and Computing Consultant, Dave Haans, traveled to the McMaster RDC to help assess and suggest improvements to their secure computing network. This type of collaboration continues the Toronto RDC’s history of providing RDCs in the RDC Network with both informal and more formal technical advice and information.

3. In March of 2007, the Toronto RDC’s Research and Computing Consultant (Dave Haans) took part in a Metadata Tools Consultation meeting along with Raymond Currie, Chair of the RDC NCC, Chuck Humphrey, Academic Director of the University of Alberta.
RDC, and the Open Data Foundation's Arofan Gregory, Pascal Heus and Jostein Ryssevik. The purpose of this meeting was to discuss the RDC NCC's initiative to create metadata for datasets used in the RDCs, along with tools to make full use of those metadata. Consultation provided by the Toronto RDC largely took the form of outlining the process of data analysis, for both researchers and Analysts, in terms helpful to the proposed development of data documentation tools.

4. On November 23, 2006, Statistics Canada's The Daily featured a working paper by Ling Yang, a researcher at the Toronto RDC, titled “The Gender Imbalance in Participation in Canadian Universities (1977-2003).” The working paper was hosted on the Toronto RDC Paper's page. Visits to the Toronto RDC website rose from an average of around 20 per day to 264 on November 23rd, falling to previous levels only after 2 weeks.

5. The Toronto RDC hosted a part of the Longitudinal Survey of Immigrants to Canada's (LSIC) focus groups soliciting feedback from researchers for the third wave of the LSIC. The feedback provided by researchers highlighted issues with previous waves of the LSIC, and provided the LSIC survey team with information that will make the third wave of the LSIC more valuable to academic researchers.

6. The Academic Director, Michael Baker, is a member of the funding allocation subcommittee of the RDC National Coordinating Committee, which continues to revise the algorithm for the distribution of the SSHRC/CIHR funds across the network. He also appeared before an international review committee in support of the NNCRDC’s application to CFI Leading Edge Fund. This application results in a new 4 year 4 million dollar grant from CFI.

Staff

The Toronto RDC is staffed with two full-time Statistics Canada Analysts, currently Angela Prencipe and Byron Lee, as well as one full-time Research and Computing Consultant, Dave Haans, and an Administrative Assistant, Heidy Morales (who left the RDC for another position at the Hospital for Sick Children in April 2007). The RDC is run by Academic Director, Michael Baker, the RBC Chair in Public and Economic Policy in the Department of Economics, and supported by a part time (35%) administrator, Susan Murphy.

As mentioned in earlier reports, it is the Analyst’s job to give advice and direction concerning the data, conduct orientation presentations for new users, to vet output from project analyses, and to provide information to the academic community about the RDC. The Consultant’s job is to maintain all lab computer systems and provide research advice to users. The Administrator keeps track of all financial and meeting records.

Extended Hours Operation

Hours
The Toronto RDC was open from 8:30 to 7:00 Monday to Thursday, and on Friday from 8:30 to 4:30. During extended hours (4:30 to 7:00pm Monday to Thursday), there were restrictions on file...
transfers and no disclosure analysis services offered. This was the case for the sixth year of operation.

As of April 27, 2007, the Toronto RDC is operating under regular hours of operation only (8:30am to 4:30pm).

Extended Hours Usage

Overall in Year 6, an average of 4.4 researchers made use of Extended Hours (compared to 5.3 in Year 5), attending the Toronto RDC an average of about 3 hours, 22 minutes during Extended Hours each evening (compared to 4 hours in Year 5). A total of 107 researchers (compared to 95 last year) made use of Extended Hours in Year 6, spending a little over 789 hours in the Toronto RDC (compared to 998 hours in Year 5).

Since last year, on a monthly basis, the average number of researchers making use of Extended Hours has remained stable at 29 researchers, with a low of 22 in April 2007 and a high of 36 in September 2006. However, the overall use of Extended Hours has decreased from an average of 83 hours in Year 5 to an average of about 66 hours in Year 6, with a high of 95 hours in November 2006 and a low of 37 hours in January 2007.

Extended Hours usage is lower this year possibly due to the fact that the Toronto RDC’s closing time was adjusted from 7:30pm to 7:00pm as of October, 2006.

As can be seen in the chart below, the highest frequency of use is 4 researchers on 42 evenings, followed by 3 researchers on 34 evenings, 6 researchers on 31 evenings, 5 researchers on 29 evenings, and 1 and 2 researchers on 28 evenings each, in Year 6 (May 1, 2006 to April 30, 2007). There were 234 evenings with extended hours usage in Year 6.
We are currently reviewing our hours of operation in light of this information.

**Promotion**

Webiste

The Toronto RDC website is located at [http://www.utoronto.ca/rdc](http://www.utoronto.ca/rdc). The website's purpose is to give researchers and prospective researchers a clear overview of the Toronto RDC and what its purpose is, and provide helpful guidance and links to those who visit.

In Year 6, the Toronto RDC website received 5,344 visits, or approximately 14 per day (about 20 each weekday, when traffic to the site is generally greater). The Toronto RDC website received its greatest number of visits in any one day on November 23rd, 2006 -- 264 -- when a working paper by Toronto RDC researcher Ling Yang was featured in that day's issue of Statistics Canada's The Daily.

The Papers page of the website features an alphabetical and chronological list of published articles resulting from research at the Toronto RDC, including links to articles appearing in Statistics Canada publications such as Health Reports, Perspectives on Labour and Income, and Juristat, which were made available for free as of April, 2006 on the Statistics Canada website.

The website also contains a brief introduction to the Toronto RDC, links to the Toronto RDC’s partners, links to information about the data, links to the SSHRC application site, contact and location information, and a page highlighting the Toronto RDC’s computing and network resources. It also offers researchers from York and Ryerson Universities the same broad information offered to University of Toronto researchers, including links to the partner university’s data libraries and
statistical consulting services.

Newsletter

The most recent newsletter was issued in the fall of 2006. The Research Data Centre staff prepares and distributes this bi-annual newsletter (spring and fall) to promote the RDC across the University of Toronto, York and Ryerson University campuses. These newsletters are intended to keep current and future researchers informed of activities and new initiatives at the RDC. In addition to information on the RDC program, the data available for analysis, and the proposal submission process, these newsletters are used as a medium to advertise our workshop series and funding opportunities for research using Statistics Canada micro-data.

Workshops

The Brown-Bag Lunch Talk Series, in its second year, featured presentations by researchers focusing on one or more aspects of their research at the Toronto RDC. The Brown-Bag Lunch Series seminars take place from October to April of each academic year in the Toronto RDC's Conference Room. Here is the list of seminars and a brief description of each held this past year:

**Tony Fang**  
Assistant Professor  
School of Administrative Studies, York University  
Research Associate  
Centre for Industrial Relations and Human Resources, University of Toronto  
Tuesday October 3rd, 2006  
12:00 noon – 1:00 pm  
"Employment Dynamics of Non-Standard Workers: Evidence from SLID"  
Non-standard employment has attracted increased research interest not only because of its growth, but also because of its association with a variety of current policy issues. The objective of the paper is to help policy-makers to understand the characteristics associated with such work and various factors determining the crucial transitions between non-standard and permanent employment. Making use of the wealth of information on non-standard employment that is available in the six waves (1999-2004) of the Survey of Labour and Income Dynamics (SLID), a profile of the individual, job, and firm characteristics of workers in various types of non-standard employment is first provided. This is followed by an analysis of employment transitions between non-standard and permanent workers by pooling five two-year panels of the SLID (1999-2004). Prior to the empirical analysis, the data and empirical methodology are discussed. The paper ends with summary and concluding observations, linking the evidence back to the policy issues.

Our second talk took place on the 25th of October. Amanda Sacker, Ph.D., University College London and Peggy McDonough, Ph.D., University of Toronto presented a talk based on their international comparative research titled: “Modelling health and poverty dynamics.”

**Amanda Sacker, Ph.D.**  
Department of Epidemiology & Public Health  
University College London  
**Peggy McDonough, Ph.D.**  
Department of Public Health Sciences  
University of Toronto
“Modelling Health and Poverty Dynamics”
The seminar discusses some of the methods and results from several studies with the common theme of taking a life-course epidemiological approach to self-rated health and poverty. Health and poverty changes during the 1990s in two countries are examined using the British Household Panel Survey (BHPS) and the US Panel Study of Income Dynamics (PSID). Four case studies are presented which share these common data sets and have a common philosophy to make the best use of self-reports over time. The studies had different research quests: determining patterns of change in individuals’ health over time and the ways in which such patterns are structured by continuity and change in poverty experiences; an investigation of whether different experiences of poverty have distinct consequences for long-term health dynamics; a comparison of dynamic health and labour force participation in the US and the UK; and a study of the joint interrelationships of poverty and health over time. The case studies also use different research strategies. The first uses growth curve methodology in a multilevel framework. This will not be described in detail but serves to illustrate the background to the more complex theoretical and statistical models in the other case studies. The second study estimates a general growth mixture model to assess the relationship between longitudinal courses of poverty and health. The model estimates latent poverty classes and determines their effects on initial health status and changes in health. The third case study uses a latent transition model to represent dynamic health as movement across discrete states involving stable periods, unidirectional change and intermittent deterioration and/or improvement. The final study presents some preliminary findings which extend the work from the previous case to a latent mover-stayer model of poverty and a joint latent transition model of health and poverty. The different methodologies give distinct insights into individual and population poverty and health dynamics. We summarise with a discussion of the conceptual, methodological and contextual challenges that have arisen while carrying out this work.

Sharon Kirkpatrick, Ph.D. Candidate
Department of Nutritional Sciences,
University of Toronto
Tuesday, December 12th, 2006
12:00 noon – 1:00 pm

“Food access among Canadian households: Insights from national health and expenditure surveys”
Ever since food banks began to proliferate in Canada in the early 1980s, public attention has been drawn to the food shortages experienced by low-income families. The experience has come to be known as food insecurity. Responses to this problem to date have been dominated by community-based food initiatives, with little attention paid to potential policy directions. Data from national health and expenditure surveys are examined to provide evidence to inform the development of policy responses to foster food security among Canadian households. Analyses of food security indicator questions included in recent cycles of the Canadian Community Health Survey are drawn upon to elucidate the sociodemographic correlates of food insecurity, as well as associations between food insecurity and physical health, mental health and dietary intakes among adults and children. In addition, data from the 2001 Survey of Household Spending is used to examine factors associated with adequacy of household food expenditures. The findings of these analyses highlight the inextricable link between food insecurity and markers of poverty, including inadequate household incomes, reliance on welfare, lack of home ownership, and female lone-parenthood. Further, the findings indicate that the experience of food insecurity is marked by vulnerability to poor health and compromised dietary intakes. This research highlights the need for a broadening of current responses to food insecurity to address factors that constrain food purchasing among low-income households.

In addition to the seminars listed above, the RDC also held three workshops. One on analyzing complex survey data in September 2006, and the other two on SAS, as follows:
The Whys and Hows of Analyzing Complex Survey Data

On Friday September 8th, 2006, David Binder, Ph.D. and Georgia Roberts, Ph.D., Statistics Canada led a workshop on the analysis of complex survey data. The workshop began with a general talk about why typical survey data are different from data collected by simple random sampling and why these differences need to be accounted for when doing analyses. There was a great turnout for this workshop, with forty-three in attendance, including researchers and students from partner universities and affiliated hospitals.

Introductory SAS workshop (offered twice, one in fall and one in winter)
Dave Haans
RDC Consultant
Friday, March 16, 2007
1:00pm to 3:00pm
Friday, October 13, 2006
1:00pm to 3:00pm

This workshop is meant to help current researchers at the RDC acquaint or re-acquaint themselves with the SAS programming language. The basics of the SAS programming language will be covered, including creating variables, reading in raw text files, modifying SAS data sets, and merging SAS data sets. While bootstrap estimation techniques will not be covered, this workshop may also prove useful to SPSS or Stata users who will need to run the SAS Bootvar macros in the future and are as yet unfamiliar with SAS.

Future Events:

Practical Bootstrap Estimation Workshop
Dave Haans
RDC Consultant
Byron Lee
Statistics Canada Analyst
Toronto Region Statistics Canada Research Data Centre
Time and Date TBA

This workshop will focus on the practical aspects of running bootstrap estimations using Statistics Canada's Bootvar and the statistical software package Stata. We will review why we bootstrap, what procedures can be replicated using bootstrap estimation techniques, and what to expect from bootstrapped results. Using a subset of the NLSCY Synthetic files, researchers will then use the RDC’s workstations to calculate estimates of their own with RDC staff guidance. Total workshop time is expected to be 3 to 4 hours in length. Since this is an initial presentation of the workshop, researcher feedback will be strongly encouraged. This workshop is open to current RDC researchers only. Please contact Dave Haans dave.haans@utoronto.ca to be placed on a mailing list for this workshop.

Research Projects

Number & Output Statistics
As of April 30th, 2007 there were a total of 258 projects and 381 researchers on account at the Toronto RDC (an increase of almost 70 new projects since last year). Of this total, 106 projects are currently active (including 10 projects awaiting orientation), 30 more than last year. We now have 122 completed projects (including those with papers under review), an increase of 22 since last year. Working papers from these completed projects have been placed on the RDC website. (Eleven of the 258 projects were cancelled by the principal investigator and 19 were transferred to another RDC and not counted as current or complete.) Appendix A and A-i show the detailed list of active and
completed projects, with titles, researchers and datasets. The tables below show the status of projects and the data sets used.

Other Reports, working papers, abstracts: 10

Distribution of Usage
A fundamental commitment of the yearly report is to provide data to contributors about the distribution of usage. Tables 1 to 3 show the amount of time spent in the RDC by institutional units (see Appendix B for specific affiliations of researchers). As in last year’s report, Tables 1 to 3 can be seen as roughly hierarchical in terms of level of aggregation: Table 1 shows affiliations by the most disaggregated institutional units, including not only departments but also hospitals, research centres and institutes, and affiliated institutions. Table 2 collects these data into larger department level affiliations according to the project PI’s departmental affiliation. Table 3 focuses on faculty and university level usage.

The usage figures reported here are based on data determined by the Toronto RDC’s security system, which maintains a log of all entries to, and exits from, the Centre by researchers and staff. The list of researchers using the Centre and their affiliations is then produced using the list of projects (Appendix A). A SAS program was written specifically to produce the usage data by these affiliations. These statistics cover the period for the fiscal year from May 1, 2006 to April 30, 2007. In these tables, “Total Time” is the total time all researchers from a given Institution and/or Department spent in the RDC; “Mean Time” is the average time per day researchers spent in the RDC; and “User-Days” refers to the sum of the number of days researchers spent in the RDC.

Table 1 shows the amount of time spent by researchers according to their most differentiated or prime affiliated unit. The University of Toronto’s department of Nutritional Science is the top user this year with a total of 1372 hours in Year Six. The Institute for Work and Health and the University of Toronto’s department of Economics are also top users with 1232 and 930 hours of usage, respectively. Other users in excess of 500 hours (or over 60, 8-hour days in the RDC lab) are U of T’s Centre for Industrial Relations (598 hours), St. Michael’s Hospital’s Inner City Health Research Unit (589 hours), U of T’s Department of Sociology (532 hours) and U of T’s Department of Health Policy, Management and Evaluation (501 hours). Usage time is spread in an evenly decreasing manner across the remaining departments (from 471 hours to less than an hour). It is interesting to note that both external partner universities are in the top ten users – Ryerson’s Business Management Program in the Faculty of Business, and York’s School of Kinesiology and Health Science in the new Faculty of Health. The number and diversity of users is apparent in that the Toronto RDC has researchers from Johns Hopkins, Brock, McMaster, Guelph, Concordia, Trent, Buffalo, Dalhousie, Harvard and British Columbia universities; external researchers from Toronto Public Health and the Ministry of Health and Long Term Care, as well as researchers from
the partner universities (York, Ryerson and Toronto) and U of T’s affiliated hospital network (St. Michael’s, CAMH, Women’s College, UHN, Sick Kids).

In Table 2, which is aggregated into a project’s principal investigator’s departmental affiliation, we see that the largest single user source again this year is the Department of Public Health Sciences (PHS) at the University of Toronto with 1,480 hours (half their use compared to 2,726 hours from last year). Of course, this is a very large and diverse “department” and includes projects from the Institute for Work and Health and some of the hospital projects, as the principal investigators are affiliated with PHS. The next largest user from the Faculty of Arts and Science at the University of Toronto is the department of Economics with 943 hours (a decrease from 1011 hours last year). U of T’s Department of Nutritional Sciences is the next biggest user with 934 hours. U of T’s Department of Health Policy, Management and Evaluation in the Faculty of Medicine is the next largest user with 622 hours (a huge increase over last year’s 91 hours). St. Michael’s Inner City Health Unit is next with 599 hours (a third less than last year’s 904 hours). U of T’s Centre for Industrial Relations is next with 578 hours (a decrease from last year’s 652 hours). U of T’s department of Sociology is also a user in excess of 500 hours, with 565 hours (about a third less than last year’s 898 hours).

Table 3 shows how these departments fit into the different university divisions that use the Centre, and Figure 2 shows the percentage of time by division. The Faculty of Medicine at U of T has the largest share of user hours from May 1st, 2006 to April 30th, 2007; accounting for 41% of total time in the RDC, with 49 users. Arts and Science at the U of T is the next largest user again this year, with about 16% of total usage time, with 18 users. Ryerson University is next with close to 9% total usage time and 7 users. York University is next with close to 8% total usage time, with 16 users. U of T’s Centres and Institutes at the School of Graduate Studies account for 7% of the usage time with 7 users and 635 hours. Hospital’s Inner City Research Unit is the next biggest user with 599 hours, and 5 users accounting for 6% of total usage time.

Graduate Students
One of the major benefits of the RDC is the training opportunities provided to graduate students. In this year, as in the past five, our figures verify that graduate students have had extensive access to the RDC. In fact, graduate students account for well over half of the total user time in the RDC this year, or 57.35%. In addition, another 2.73% of users are post-doctoral fellows.

Operating Budget
Revenue

The 2006-07 operating budget was based on the following sources of revenue:

<table>
<thead>
<tr>
<th>Source</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>UT AIF</td>
<td>100,000</td>
</tr>
<tr>
<td>SSHRCC (05/06)</td>
<td>18,274</td>
</tr>
<tr>
<td>SSHRCC (06/07)</td>
<td>98,720</td>
</tr>
<tr>
<td>CIHR</td>
<td>89,523</td>
</tr>
<tr>
<td>UT Arts &amp; Sci</td>
<td>30,000</td>
</tr>
<tr>
<td>York U.</td>
<td>20,000</td>
</tr>
<tr>
<td>Ryerson</td>
<td>20,000</td>
</tr>
<tr>
<td>IWH (accessibility)</td>
<td>4,000</td>
</tr>
<tr>
<td>Fee for Service</td>
<td>14,100</td>
</tr>
<tr>
<td><strong>Total Revenue</strong></td>
<td><strong>397,169</strong></td>
</tr>
</tbody>
</table>
Most of the money is held in one main account, except for the SSHRC and CIHR contributions, which are held in separate accounts for reporting purposes. The Director’s research allowance (supported by the amount contributed by the Faculty of Arts and Sciences), a sum of $1,500 in year 6, is shown as expended out to the Academic Director, and expenses incurred therein are not recorded. The amount of $18,274 reflects the final payment for 2005-06, but received and recorded in this fiscal year (2006-07). The amount from Ryerson was received after April 30th, but was recorded in this year for which it was intended. There are two unexpected sources of income for this year. The Institute for Work and Health generously donated $4,000 to help cover the costs of the three tables installed in the RDC to make it accessible for all users. (The actual cost of tables was $4,980.12.) The fee for service contracts that began in early fall offered a new source of revenue. To date the Toronto RDC has five contracts and received the initial fee of $3,500 from four of the five ($3,500 x 4 = $14,000). An additional $100 was received by a government department that covered the cost of the Toronto RDC’s introductory SAS workshop (free to in-house researchers) for one of their employees.

**Expense**

Expenses incurred for year six are listed as follows, using the format for network expenses adopted by the coordinating committee for the RDCs to include indirect costs:

<table>
<thead>
<tr>
<th>Cost</th>

</tbody>
</table>

1. Indirect cost Director Buy-Out Time, total of $20K paid to Economics Dept at UT, $13 from Toronto RDC & an additional $7K from Arts & Science.
2. Indirect cost Computer Depreciation is cost of equip ($300K) divided by an estimate of 5 years of use, 300/5 = $60K.
3. Indirect cost of Sec/Admin time is the office space at Inst for Life Course & Aging where admin staff office for Susan Murphy is located (35% of $12K = $4.2K).
For more detail, the following breakdown lists the same (direct) expenses, broken down by staff member and type of supply or service for actual expense:

</tbody>
</table>

A net loss was projected for Year 6 of about $15,710 and was to be offset by the carryforward at the end of year 5. However, the actual revenue received of $397,169 was $52,293 greater than projected. Part of this was to offset new and actual expenses, such as the $4,000 received by IWH to provide the accessible desks which cost close to $5,000, and the $2,552 from Arts and Science to cover the increase in the Director’s stipend (from $5,500 to $8,000 plus benefit costs for 2 of the 12 months). Other revenue came from an increase in the amount of national funding to the Toronto RDC from the NCC, $31,641 more than originally promised (after a subcommittee, including Academic Director Michael Baker, looked at the allocation of funding and a new calculation was instituted); plus $14,000 in fee for service contracts and $100 for a workshop fee (Intro SAS held by RDC staff, Dave Haans). In addition, actual expenses were less than projected for the Statistics Canada analyst and extended hours employee fee by $9,254, bringing our Year 6 balance to a net profit of $40,466 rather than the original anticipated loss of about $15,710. This plus the carryforward from the prior year, gives a balance forward at April 30th, 2007 of $96,999.42 going into year seven (this includes the $20,000 received from Ryerson just after the year end).

**Projection for Year 7**

The projected revenue commitments and expenses for the RDC operating budget for year seven are below. The SSHRCC and CIHR revenues are based on the revised allocation formula that assumes 1 million in funding from SSHRCC, as distributed by the National Coordinating Committee (NCC) RDC June 26, 2007 following their meeting in April in London Ontario. For 2007-08, the Toronto RDC is allocated a total of $222,737.85 from the joint sponsors.
There will be an expected 8% increase in the costs of the Statistics Canada employees, as mentioned in the past year’s report. The Toronto RDC expects to have 3 analysts working 2.2% FTE from mid-September, when Tina Hotton returns from her maternity leave. The breakdown of projected expenses is shown in detail in Appendix C.

With the SSHRCC increase, the Toronto RDC will have a welcome net balance, and not a loss.

Toronto RDC Use by Division

- UofT Medicine: 41.76%
- UofT Arts & Science: 15.46%
- York University: 7.02%
- UofT SGS: 7.02%
- Ryerson University: 3.90%
- St. Michael's Hospital: 6.02%
- Other: 11.35%
Project 4 – Mark Stabile, “Socio-economic status and child health”, NLSCY. Funding from SSHRCC. This project is in process and Mark is currently working on a second paper.

Contract expiry date: Sept 1/04

- **Refereed article:** “Socioeconomic Status and Child Health: Why is the Gradient Steeper for Older Children?” American Economic Review, forthcoming.
- **Conference presentation:** “Socioeconomic Status and Child Health: Why is the Gradient Steeper for Older Children?” 2002 National Bureau of Economic Research Health Care Meetings.
- **Conference presentation:** “Socioeconomic Status and Child Health: Why is the Gradient Steeper for Older Children?” 2003 Meetings of the American Economic Association.
- **Workshops, talks:** “Socioeconomic Status and Child Health: Why is the Gradient Steeper for Older Children?” University of British Columbia, January, 2003.

Project 5 – Michael Baker, “Public Policy and Child Care in Canada”, NLSCY, SSHRCC. This project is in process.

Co-authors have presented the paper from this project at invited workshops at the following venues:

- **Workshops, talks:** National Bureau of Economic Research
- **Workshops, talks:** Cornell University
- **Workshops, talks:** Queen’s University
- **Workshops, talks:** MIT
- **Workshops, talks:** University of Victoria
- **Workshops, talks:** University of Waterloo
- **Workshops, talks:** University of Western Ontario
- **Workshops, talks:** University of British Colombia

The paper from this project received extensive media coverage in February 2006 as a result of a CD Howe media brief that summarized its results.

**UPDATED April 30th, 2006 (8 workshops, extensive media coverage)**

Project 6 – Catherine Deri, “Social Networks, Health Status and Health Service Utilization”, NPHS.

Contract expiry date: Sept 1/04

- **Theses and Dissertations:** I successfully defended my PhD thesis last week in which the two main analytical chapters were part of the project listed above.
- **Conference presentation:** Canadian Health Economics Association Meetings, Halifax Nova Scotia, May 2002
- **Conference presentation:** Canadian Economics Association Meetings, Calgary Alberta, June 2002
- **Conference presentation:** Canadian Economics Association Meetings, Ottawa Ontario, June 2003
- **Conference presentation:** Statistics Canada Research Data Center Conference, Hamilton Ontario, September 2003

While on the ‘job market’ last January (2003), I presented my paper in the following Recruiting Workshops:

- **Workshops, talk:** York University, Toronto, Ontario
- **Workshops, talk:** University of Waterloo, Waterloo, Ontario
- **Workshops, talk:** Laurier University, Waterloo, Ontario
- **Workshops, talk:** Dalhousie University, Halifax, Nova Scotia
- **Workshops, talk:** Brock University, St. Catharine’s, Ontario
- **Workshops, talk:** Florida State University, Tallahassee, Florida
- **Workshops, talk:** University of Ottawa, Ottawa, Ontario
- **Workshops, talk:** Carleton University, Ottawa, Ontario
- **Workshops, talk:** Finance Canada, Ottawa, Ontario

- **Other academic activity related to RDC usage:** I accepted the position of Assistant Professor in the Department of Economics at the University of Ottawa July 2003.

Project 7 – Peggy McDonough, “A Life Course Approach to the Social Determinants of Health”, NPHS. Funding from the Canadian Institute of Health Information.

---

**Refereed articles**

---

Project 9 – Jenny Jenkins, Jane Sprott & Tony Doob, “Preventing Delinquency: Understanding the Development and Nature of School Attachment”, NLSCY. This project was done under contract to HRDC. A report was submitted to them in March 2002. Problems with data quality (including missing data) led us not to pursue a peer-reviewed publication for this study.

Contract expiry date: March 31/02. (*Progress report completed for Statistics Canada; A report was submitted to HRDC in March 2002 entitled "Preventing Delinquency: understanding the development and nature of school attachment")

---

Project 10 – Charles Jones, “The impact of Neighbourhood Social Capital and Family Stress on Child Health and Learning Outcomes in Canada”, NLSCY. This project was done under contract to HRDC. A report was submitted to them in March 2002. Analysis of NLSCY Cycles 1 to 3 in the Statistics Canada Research Data Centre is completed and work continues with the public use files from the same survey.

Contract expiry date: March 31/02. (*Final Report submitted to HRDC March 31, 2002*)

---

**Refereed articles**

---

**Conference presentations**

---

**Refereed articles**

---

**Conference presentations**

Project 11 – Anil Verma, “Immigration, Ethnic Diversity and Labour Unions in Canada”, SLID. This project was done out of Ottawa, but is listed at the Toronto RDC.
Contract expiry date: Aug 31/02.

Project 12.1 – Jenny Jenkins, “Stability and Change in Aggression in Pre-School Children and Early Adolescents”, NLSCY. We began this project but abandoned it when we found that the measurements that we needed across cycles were not available. This project can be cancelled.
Contract expiry date: Dec 31/03.

Project 12.2 – Jenny Jenkins, “Sibling relationships and changes in aggression”, NLSCY. This project is in process, a PhD thesis (S. Bernardini) is underway with expected submission in April 2004.
Contract expiry date: Dec 31/03.

Project 12.3 – Jenny Jenkins, “Changes in parenting and changes in child aggression”, NLSCY.
Contract expiry date: Dec 31/03. (Report completed for Statistics Canada.)

Project 12.4 – Jenny Jenkins, “Factors associated with disordered eating patterns in early adolescence”, NLSCY. This project is in process, a PhD thesis (G. Bean) is underway with expected submission in April 2004.
Contract expiry date: Dec 31/03. (Progress report completed for Statistics Canada.)

Project 13 – William Magee, “?”, Funding from NHRDP. SLID.

UPDATED APRIL 30, 2004 (1 new article, report to Stats Can).

Contract expiry date: March 31/03.

Project 15 – Elizabeth Badley, “Determinants of changes in self-reported health”, NPHS.
Contract expiry date: Dec 31/02.
   - Refereed articles: Perruccio AV, Power JD, Badley EM. The relative population impact of thirteen chronic conditions across four different outcomes – a novel application of log-binomial techniques. Journal of Epidemiology and Community Health (revise and resubmit).

Toronto Region Statistics Canada Research Data Centre: Sixth Annual Report

 UPDATED APRIL 30, 2006 (4 new articles, 2 new conference presentations, 1 new workshop)

Project 16 – Angela Cheung, “Predicting Emotional Distress In Family Caregivers: Analysis of the Longitudinal National Population Health Survey Data”, Longitudinal NPHS 1994-1998. Funding from NHRDP. This project is complete. Contract expiry date: July 31/02. *(Report completed for Statistics Canada.)*

- **Theses and Dissertations:** This was an exercise in longitudinal data analysis to prepare for my PhD data analyses.

 UPDATED FEBRUARY 18, 2005 (article submitted, project complete)

Project 17 – Alice Charach, “Methylphenidate Use in Canadian Children”, NLSCY. Contract expiry date: Sept 1/03. *(Report completed for Statistics Canada.)*

Project 18 – Sunghee Jeon, TRANSFERRED TO MCMASTER RDC.

Project 19.1 – Teresa To, “The relationship between body mass index and asthma in Canadian Children”, NLSCY. Contract expiry date: Oct 1/02. *(Report completed for Statistics Canada.)*

- **Conference presentations:** Poster - To T, Vydykhan T, Dell S. Body Mass Index and Asthma in Canadian Children aged 4-11. Canadian Paediatric Society's Annual Meeting, Vancouver, 2001.

- **Conference presentations:** Poster – To T, Vydykhan T, Dell S: Body Mass Index and Asthma in Canadian Children aged 4-11. The Hospital for Sick Children, Research Institute Retreat, 2001.

 UPDATED APRIL 30, 2004 (previously “accepted” article now published).

**UPDATED APRIL 30, 2004 (previously “under review” articles now “in press”).**

**Project 20** – Jenny Jenkins, “Cultural differences in parenting and child outcome”, NLSCY. Funding from SSHRCC. Contract expiry date: Aug 30/04.

- **Other Academic Activity**: (Masters thesis completed through public use files, based on NLSCY data) Alison Owen MA 2000. Examining the relationship between age, sex, parenting, and children’s mental health outcomes in remarried and intact families.

**UPDATED APRIL 30, 2007 (1 article, 1 other academic activity)**

**Project 21** – Curtis Breslin & Cameron Mustard, “Mental Health Disorder, Treatment and Work Disability in the NPHS”. NPHS. This project is complete.

Contract expiry date: Dec 31/03. (*Progress report completed for Statistics Canada: Under the terms of our contract with the Health Statistics Division, we provide regular updates of the reports and articles produced from the Statistics Canada surveys.*)

**UPDATED APRIL 30, 2004 (1 new refereed article).**

**UPDATED FEBRUARY 18, 2005 (1 new refereed article being in press; project complete)**

**Project 22** – Curtis Breslin & Cameron Mustard, “Alcohol Use and Work Disability in the NPHS”. This project is complete and has no current output.

Contract expiry date: Dec 31/03. (*Progress report completed for Statistics Canada: Under the terms of our contract with the Health Statistics Division, we provide regular updates of the reports and articles produced from the Statistics Canada surveys.*)

**NO FURTHER UPDATE AT APRIL 30, 2004**

**UPDATED AT FEBRUARY, 2005 (project complete, no output)**

**Project 23** - Curtis Breslin & Cameron Mustard, “Prevalence and Determinants of Work-related Injuries among Young Workers”, NPHS, NLSCY. This project is complete.
Contract expiry date: Dec 31/03. (Progress report completed for Statistics Canada: Under the terms of our contract with the Health Statistics Division, we provide regular updates of the reports and articles produced from the Statistics Canada surveys.)

- **Referred articles:** Smith PM, Breslin FC, Beaton DE. Questioning the stability of sense of coherence: Examining the impact of socioeconomic status and working conditions in the Canadian population. *Social Psychiatry and Psychiatric Epidemiology*, 38(9):475 - 484.

- **Conference presentations:** Breslin FC & Smith P. Household socioeconomic status as a predictor of youth working in manual occupations. Presented at the 130th meeting of the American Public Health Association, Philadelphia, PA. November, 2002.

- **Other academic activity related to RDC usage:** Grant - Breslin, FC, Amick, B, Hogg-Johnson, S, Tompa, E, Smith, P. Work injury and young people: A prospective survey. Grant # 1 R03 OH008126-01 funded by National Institute for Occupational Safety and Health, $100,000 over two years.

**UPDATED APRIL 30, 2004 (1 new grant - “other academic activity”)**

**UPDATED FEBRUARY 18, 2005 (1 new Theses and Dissertation)**

**Project 24** – Emile Tompa & Cameron Mustard, “Underemployment/Contingent Work, the Contraction of the Social Safety Net and their Impact on Self-reported Health Status in a Cohort of Canadian Adults: Analysis of SLID and the NPHS”. SLID, NPHS. Funding from Canadian Institutes for Health Research with top off from the Workers’ Compensation Board of Ontario Research Advisory Committee. This project is complete.

Contract expiry date: Dec 31/03. (Progress report completed for Statistics Canada: Under the terms of our contract with the Health Statistics Division, we provide regular updates of the reports and articles produced from the Statistics Canada surveys.)

**UPDATED APRIL 30, 2004 (1 new book chapter, 2 new refereed articles).**

**UPDATED FEBRUARY 18, 2005 (project complete, no further output)**

**Project 25** – Cameron Mustard, “Unemployment, Job Characteristics and Self-reported Health Status and Disability in a Cohort of Canadian Adults, a Cohort of American Adults, a Cohort of German Adults and a Cohort of Swedish Adults”, SLID. This project is complete.

Contract expiry date: Dec 31/03. (Progress report completed for Statistics Canada: Under the terms of our contract with the Health Statistics Division, we provide regular updates of the reports and articles produced from the Statistics Canada surveys.)

- **Referred articles:** Pole J, Mustard CA, Cole DC. Association of asthma and other allergies with major depression and back pain: a cross-sectional approach. (Submitted for publication). Also Working Paper #159, Toronto: Institute for Work & Health under title “The cross-sectional association of asthma, back problems and depression: is there a common underlying mechanism?”

**NO FURTHER UPDATE AT APRIL 30, 2004 (still in process)**

**UPDATED FEBRUARY 18, 2005 (project complete, no further output)**

Project 26 – Cameron Mustard, “The Impact of Socio-Economic Status and Labour-market Experiences on Transitions into Work Disability for a Cohort of Canadian Adults: Analysis of the SLID and the NPHS”. SLID, NPHS. This project is complete.

Contract expiry date: Dec 31/03. *(Progress report completed for Statistics Canada: Under the terms of our contract with the Health Statistics Division, we provide regular updates of the reports and articles produced from the Statistics Canada surveys.)*

**NO FURTHER UPDATE AT APRIL 30, 2004 (still in process)**

**UPDATED FEBRUARY 18, 2005 (project complete, no further output)**

Project 27 – Cameron Mustard, “Labour Market Experiences and Mortality in the National Population Health Survey 1994-2000”. NPHS. This project is complete.

Contract expiry date: Dec 31/03. *(Progress report completed for Statistics Canada: Under the terms of our contract with the Health Statistics Division, we provide regular updates of the reports and articles produced from the Statistics Canada surveys.)*

**NO FURTHER UPDATE AT APRIL 30, 2004 (still in process)**

**UPDATED FEBRUARY 18, 2005 (project complete, no further output)**

Project 28 – Selahadin Ibrahim & Cameron Mustard, “Work Stressors in 1994/5 as Predictors of RSI in 1996/7 among the Canadian Working Population”, NPHS. This project is complete.

Contract expiry date: Dec 31/03. *(Progress report completed for Statistics Canada: Under the terms of our contract with the Health Statistics Division, we provide regular updates of the reports and articles produced from the Statistics Canada surveys.)*

**NO FURTHER UPDATE AT APRIL 30, 2004 (still in process)**

**UPDATED FEBRUARY 18, 2005 (project complete, no further output)**
Project 29 – Cameron Mustard, “Unemployment and Health in a Cohort of Canadian Adults and a Cohort of American Adults”. NPHS. This project is complete.
Contract expiry date: Dec 31/03.\(^\text{(Progress report completed for Statistics Canada: Under the terms of our contract with the Health Statistics Division, we provide regular updates of the reports and articles produced from the Statistics Canada surveys.)}\)
- **Refereed articles:** Lavis JN, McLeod CB, Mustard CA. Unemployment and self-reported health status: A study in a Canadian and an American cohort. (In preparation, manuscript not available).

**NO FURTHER UPDATE AT APRIL 30, 2004 (still in process)**
**UPDATED FEBRUARY 18, 2005 (project complete, no further output)**

Project 30 – Cameron Mustard, “Functional Impairment and Disability Trends Among Labour-force Participants and Non-participants”, SLID. This project is complete.
Contract expiry date: Dec 31/03.\(^\text{(Progress report completed for Statistics Canada: Under the terms of our contract with the Health Statistics Division, we provide regular updates of the reports and articles produced from the Statistics Canada surveys.)}\)

**NO FURTHER UPDATE AT APRIL 30, 2004 (still in process)**
**UPDATED FEBRUARY 18, 2005 (project complete, no further output)**

Contract expiry date: March 1, 2004.
- **Theses and Dissertations:** Linda Lee, “Self-Employment and the Family” (title subject to change), to be submitted in summer of 2004.
- **Course Materials:** Some of the findings of this study was used as examples for my undergraduate sociology course in family demography in the section on work and the family.

**UPDATED APRIL 30, 2004 (thesis expected, findings used in course materials).**

Project 32 – Jenny Jenkins, Jon Rasbash & Thomas O’Connor, “Developmental trajectories in high risk environments”, NLSCY. Funding from SSHRCC.
Contract expiry date: Dec 31 05
- **Refereed articles:** O,Connor, T., Jenkins, J.M. Rasbash, J. Within-Family Differences in Child Behavioral Problems Are Predicted from Differential Peer Relationships.

**UPDATED APRIL 30, 2007 (2 articles, 2 other academic activities)**

Project 33 – Teresa To, “Childhood Asthma & Long-Term Outcomes - A Longitudinal Assessment”, NLSCY. Funding from the Research Institute of the Hospital for Sick Children.
Contract expiry date: April 30/05. (Report completed for Statistics Canada.)

- **Refereed articles:** To T, Tassoudji M, Dell S: Longitudinal Health Outcomes of Asthmatics – Results from a Population-based Prospective Study. (being submitted to journal)

- **Conference presentations:** Abstract - To T, Tassoudji M, Dell S: Health Status and Health Outcomes of Children with Reported Asthma - Results from a Population-Based Prospective Study. *American Journal of Respiratory and Critical Care Medicine* 2003: p A781.

- **Conference presentations:** Poster – To T, Tassoudji M, Dell S: Health Status and Health Outcomes of Children with Reported Asthma - Results from a Population-Based Prospective Study American Thoracic Society’s 99th International Conference, Seattle Washington, 2003.

- **Conference presentations:** Poster - To T, Cao H: Influence of Regression Towards the Mean in Evaluating Developmental Outcomes in Preschool Children. The Hospital for Sick Children, Research Institute Retreat, Toronto, 2002.

- **Workshops, talks:** “Breastfeeding is Protective Against Asthma and Wheeze in Canadian Children Under Age Six”, The Hospital for Sick Children, Research Institute, Toronto, 2003.

UPDATED APRIL 30, 2004 (3 previously listed refereed articles now listed as conference presentation abstracts).

UPDATED FEBRUARY 18, 2005 (1 new refereed article being submitted to journal; report sent to Statistics Canada, HSC sponsor).

**Project 34** – Susan Fitzgibbon, “Economic, demographic, support and health determinants of residential mobility and mobility outcomes among Canada’s elderly, 1994-1999”, NPHS.

Contract expiry date: Aug 31/02. (Report completed for Statistics Canada.)

**Project 35** – Jane Sprott, “School Climate and its Effects on Delinquency”*, Cycles two and three of the NSLCY.

Contract expiry date: Dec 1/03. (Report completed for Statistics Canada.)

*The initial proposal sent to the RDC had the title: “The Development of a School Bond: Differences and Similarities for Early Aggressive Children Compared to Other Children”. However, the project title (and obviously the focus of the project) changed slightly when it became apparent that the teacher data from cycle one of the NLSCY was insufficient to explore the initial research question.

- **Course Materials:** I talk about this study and its policy implications in my 3rd year undergraduate young offenders course and in my 4th year Advanced Topics in Criminology course.

- **Media Coverage:** In SSHRC’s annual review of the research it sponsors, my research on this general topic was highlighted. They have fielded many media calls and sent some on to me, though I do not typically keep track of all the newspaper interviews I do. About a month ago SSHRC gave me a summary of everywhere my research had appeared in the media, but I unfortunately did not keep that email. You may be able to contact SSHRC and ask them for their media list on my work.

- **Use by a government policy department:** SSHRC has highlighted the research, which has made many organizations interested in the policy implications. To date I have not given anyone a copy of my paper that is under review in a journal – though I hope soon to be able to give copies out to anyone who asks for it.

**Project 36** – Lesley Robb, BEING TRANSFERRED TO TORONTO FROM MCMASTER.
Project 37 – Peri Ballantyne & Philippa Clarke, “Patterns in Overall Pharmaceutical Use by Seniors: Data from the National Population Health Survey”, NPHS 1994/95, 1996/97, 1998/99 and 2000/01. Funding from University of Toronto Connaught New Staff Matching Grant.
Contract expiry date: April 30/04. This project is in process.
- **Conference presentations:** *Use and Non-use of Medicines by Ontario Seniors: Lessons for Clinical Practitioners and Other Health Advocates*. Peri Ballantyne. Invited Presentation at the Centre for Health and Well-being, Department of Sociology, University of Western Ontario. January 25, 2002.

**NO FURTHER UPDATE FEBRUARY 18, 2005**

Project 38 – Marcia Rioux & Ezra Zubrow, “The Geography of Canadian Literacy and Disability”, 1991 Health and Activity Limitation Survey (HALS); 1994 International Adult Literacy Survey (IALS) for Canada; 1996 National Health Population Survey (NPHS); 1996 Census of Canada; 2001 Participation and Activity Limitation Survey (the last 2 data sets were not acquired from RDC).
Contract expiry date: June 30/03. *(Report completed for Statistics Canada.)*
- **Books:** Marcia Rioux, Ezra Zubrow, Mary Stutt Bunch, Wendy Miller, *Atlas of Literacy and Disability*, Toronto Canadian Abilities Foundation. 144 pages
- **Theses and Dissertations:** Wendy Miller, M.A. (University of Buffalo, Geography)
- **Conference presentations:** Forthcoming: Federal-provincial senior managers social policy meeting – March 2004
- **Conference presentations:** Presentation to a special session in Ottawa with participants from 4 government departments to give a presentation on the study.
- **Conference presentations:** American Association of Geographers Annual meeting – presentation - 2003
- **Media Coverage:** Forthcoming: national press release organized jointly by University of Buffalo, York University and Canadian Abilities magazine
- **Use by a government policy department:** See above – re presentation to senior social policy managers in federal and provincial governments (forthcoming March 2004) and presentation to federal government departments (in early December 2003).

Project 39 – Shek-Wai Hui, “The U.S./Canada Difference in Postsecondary Educational Choice”, SLID. This project has been accepted, but is not yet active.

Project 40 – Michael Smart, “Smoking, taxation, and the health of children”. THIS PROJECT HAS BEEN ABANDONED.

Project 41 – Whitney Berta, “?”, Residential Care Facilities Survey (RCFS).
Contract expiry date: Aug 29/03. A health report to Statistics Canada is in process.
Project 42 – Peggy Ng, “Chapter on Modeling the Educational Planning Process using data from the 1999 SAEP”. Contract expiry date: Dec 31/03.

Project 44 – Kathleen Rybczynski, “Gender Differences in the Incidence and Duration of Self-Employment” (working title, subject to change), SLID. Contract expiry date: June 30/04.

- Theses and Dissertations: Currently chapter 1 in my dissertation. This dissertation has not been submitted (expecting to submit this summer)
- Workshops: Rybczynski, Kathleen. 2003. "Gender Differences in the Incidence and Duration of Self-Employment" Quantitative Workshop, Queen’s University, Kingston.

NO FURTHER UPDATE AT APRIL 30, 2004

Project 45 – Wayne Corneil, “Health Status of Executives in the Federal Public Service”, PROJECT NEVER STARTED.

Project 46 – Mina Singh, “Gender Gap in Reading Literacy”, PISA. This project is in process, no current output. A thesis is expected. (Report completed for Statistics Canada.)
Contract expiry date: June 30/04.

NO FURTHER UPDATE AT APRIL 30, 2004

Project 47 – Mark Stabile, “Self-reported Health Measures and Labour Market Behaviour”, NPHS. Funding from CIHR. This project is in process, no current output.
Contract expiry date: July 30/04.

Project 48 – Karen MacCon, “The Impact of Context on Adolescent Transitions”, NLSCY cycles 1, 2, and 3. Funding from the Family Transformations and Social Cohesion Project – UWO.
Contract expiry date: Dec 31/03.

- Theses and Dissertations: The Impact of Context on Adolescent Transitions (Defence March 2004)
- Workshops, talks: The Impact of Context on Adolescent Transitions, UWO Health and Aging Day May 2003

Project 49 – Vincent Hildebrand, “Pension Portability and Labour Mobility: Evidence from Canadian Micro-data”, SLID, LMAS (which has not been made available yet and delayed progress). Funding from SEDAP. This project is in process, no current output.
Contract expiry date: Dec 31/03.

Project 50 – Lori Curtis, “Changing Times in Canada: Are there sex differences in health status and are they converging or diverging over time with changing trends in labour, social and economic roles of men and women?”, NPHS, GSS, FAMEX, SCF. This project is in process, no current output (the researcher has been on leave of absence, and was granted an extension.)
Original contract expiry date: July 31/03.

Contract expiry date: April 30/04.

Project 52 – Curtis Breslin, “Work injuries among Canadian workers: Is there an inverse relationship with age?”, CCHS v1.1. Funding/support from the Institute for Work and Health. This project is complete.

Contract expiry date: Sept 30/03. (Report completed for Statistics Canada, & Working paper #216 on file at RDC)

UPDATED APRIL 30, 2004 (1 new refereed article, conference presentation accepted) UPDATED FEBRUARY 18, 2005 (1 new conference presentation, project complete)

Contract expiry date: Aug 31/04.

Project 54 – Katreena Scott, “Comparison of Outcomes for Children in the Better Beginnings, Better Futures Program to Representative National and Provincial from the NLSCY”.
Contract expiry date: June 30/03. This project is complete.

(Comments from PI: We gathered information from NLSCY to provide national comparison benchmarks for evaluating the impact of the Better Beginnings, Better Futures program. Information about Better Beginnings and its research findings is widely disseminated in a variety of formats. In some cases, this includes reference to National benchmarks gathered as part of this access project.)

UPDATED APRIL 30, 2006 (government report)

Project 55 – Lisa Strohschein, “Socioeconomic differences in child health: The influence of stressful life conditions”, NLSCY. Funding from SSHRCC. This project is in process, and has no current output.
Contract expiry date: April 30/04.

Project 56 – Ernie Lightman, “Pre and Post welfare employment, earnings and income trajectories”, SLID. Funding from SSHRCC. This project is in process. (Report submitted to Statistics Canada - A draft research paper was submitted to Statistics...
The only substantive requirement was to apply bootstrap variance estimation techniques. This work commenced in January 2007 and is now completed. The paper will be edited and re-submitted.

**Contract expiry date: Nov 30/03, extended to May 31, 2007.**

**UPDATED APRIL 30, 2007 (1 government report)**

**Contract expiry date: Dec 31/04.**

**Project 58** – Paul Grootendorst, “Dynamics in prescription drug cost sharing and prescription drug use: Evidence from the longitudinal 2000-01 National Population Health Survey”, NPHS. Funding from CIHR, project 57803. This project is in process, and has no current output.

**Contract expiry date: Dec 31/03.**

**UPDATED APRIL 30, 2004 (CIHR granted extension to March 2005.)**

**NO FURTHER UPDATE APRIL 30, 2006**

**Project 59** – Martin Schellhorn, TRANSFERRED TO MCMASTER RDC.

**Contract expiry date: Dec 31/04. This project is complete.**

- **Refereed articles:** Kasman N, Badley EM. Beyond access; who reports that health care is not being received when needed in a publicly-funded health care system? The receipt of health care in Canada. Canadian Journal of Public Health (Submitted).

- **Refereed articles:** Perruccio, A.V., Power, J.D., Badley, E.M. Arthritis Onset and Worsening Self-rated Health: The Role of Pain and Activity Limitations; a longitudinal Evaluation. Arthritis Care and Research (under review)

- **Referred articles**: Perruccio AV, Power JD, Badley EM. The relative population impact of thirteen chronic conditions across four different outcomes – a novel application of log-binomial techniques. *Journal of Epidemiology and Community Health* (revise and resubmit).

- **Workshops, talks/Presentations:** Badley EM. “A laboratory without benches – Research without walls”. Arthritis and Autoimmunity Research Centre Foundation Board Tour, University Health Network, November 2003.

- **Workshops, talks/Presentations:** Badley EM. Alliance for the Canadian Arthritis Program (ACAP) Steering Committee, The Arthritis Society Advocacy Team Meeting. November 2003.

- **Workshops, talks/Presentations:** Badley EM. “A laboratory without benches – Research without walls”. Toronto General Hospital and Toronto Western Hospital Foundation Donor Tours. University Health Network, October 2003.

- **Workshops, talks/Presentations:** Badley, E.M. *Put Arthritis on the Map*. Sunnybrook & Women’s Health Sciences Centre Department of Rheumatology. Toronto. January 2004.

- **Workshops, talks/Presentations:** Badley, E.M. *The Challenge of Arthritis*. Pfizer Canada, Coxib (Physician) Advisory Board meeting. Mont Tremblant, Quebec. February 2004.

- **Workshops, talks/Presentations:** Badley, E.M. *Challenges in Care for Inflammatory Arthritis*.

**Media Coverage:** “Arthritis in Canada” Results Report

- **Use by a government policy department:** As a result of *Arthritis in Canada* (Published September 2003), the Public Health Agency of Canada has made arthritis a priority for Public Health Surveillance and has committed funds for this initiative (arthritis was not previously on their list).

- **Use by a government policy department:** The findings from the *ICES Research Atlas: Arthritis and Related Conditions in Ontario*, is being used by the Ontario Ministry of Health and Long-Term Care, specifically Dr. Alan Hudson’s Access to Services and Wait Times for total joint replacement.

**NO FURTHER UPDATE AT APRIL 30, 2004**

**UPDATED FEBRUARY 18, 2005** (1 new book chapter, 4 new refereed articles, 7 new conference presentations, 8 new wrksp/talk/presentations, 34 new media, 2 new government usage)

(Note from Elizabeth: The above is an integrated program of research, not a project as such.)
Project 61 – Rosemary Tannock, “Cultural Differences in ADHD Symptomatology and Service Utilization in Canada”, NLSCY.
Contract expiry date: April 30/04.
(2 papers, currently in preparation, to be submitted to peer reviewed journals)
- **Workshops, talks:** (Talk) Ho., C., & Tannock, R. (January, 2004). Cultural differences in ADHD prevalence and service utilization in Canada. Talk to be given at the Culture and Community Mental Health Studies seminar series of the Centre for Addiction and Mental Health.
- **Workshops, talks:** Forthcoming talk for the Culture and Community Health Studies seminar series at the Centre for Addiction and Mental Health.

Project 62 – Charles Jones, “Gender and Children's Developmental Trajectories”, NLSCY. This project was done under contract to HRDC. A report was submitted to them in March 2002. Analysis of NLSCY Cycles 1 to 3 in the Statistics Canada Research Data Centre is completed and work continues with the public use files from the same survey.
Contract expiry date: June 30/03. (Final Report submitted to HRDC March 31, 2002)

Project 63 – Stewart Thornhill, “An evaluation for the WES review committee (project for Garnett Picot)”, WES. Funding from SSHRCC.
Contract expiry date: March 28/03. (Contract report completed for Garnett Picot.)
**NO FURTHER UPDATE AT APRIL 30, 2004**
**TRANSFERRED TO UWO RDC.**

Project 64 – Anthony N. Doob and Raymond Tam, “Race/Ethnicity and view of the police”, GSS13. This project is in process and has no current output. The analyses have been complete, and there are plans to write a short research note and submit it for publication.
Contract expiry date: July 31/03.

Project 65 – Charles Jones, “Seminal Approaches to the Study of Children's Trajectories of Individual Outcomes”, NLSCY, YITS. This project was done under contract to HRDC. A report was submitted to them in March 2002. Analysis of NLSCY Cycles 1 to 3 in the Statistics Canada Research Data Centre is completed and work continues with the public use files from the same survey.
Contract expiry date: June 30/03. (Final Report submitted to HRDC March 31, 2002)

Project 66 – Marni Brownell, “Geography and socioeconomic influences on prevalence of methylphenidate use, and changes in use over time in Canadian children”, NLSCY.
Contract expiry date: May 31/04.

Project 67 – Enza Gucciardi, Tina Badiani & Donna E. Stewart, “Prevalence of and Demographics Associated with the Misperception of Being Overweight: Findings from the 2000/01 Canadian Community Health Survey”, CCHS 1.1. This project is complete and a manuscript is in review.
Contract expiry date: Nov 30/03 - in the process of a renewal. (Report completed for Statistics Canada.)
**UPDATED APRIL 30, 2004 (project complete, manuscript in review).**

Project 68 – Whitney Berta, “Operational Efficiencies in Long-Term Care Facilities in Canada”, RCFS. This project is in process and has no current output.
Contract expiry date: June 30/06.

Project 69 – Flora Matheson, “Community and Well-being”, CCHS 1.1, NPHS – Census/Business data. This project is complete.
Contract expiry date: Nov 30/05.

- **Government Report:** Flora I. Matheson, Rahim Moineddin, James R. Dunn, Maria Isabella Creatore, Peter Gozdyra, Richard H. Glazier. “Urban Neighborhoods, Chronic Stress, Gender and Depression.” Draft manuscript provided to Statistics Canada.

**UPDATED APRIL 30, 2006 (1 article, 1 government report)**

**Project 70** – Michael Baker, “Fertility and Female Labour Supply”, Labour Force Survey: Master Files (LFS). Funding from SSHRCC. This project is in process.

- **Conference presentation:** “How does job-protected maternity leave affect mothers employment and infant health?” Canadian Economics Association Meetings, Toronto ON, June 2004

- **Conference presentation:** “How does job-protected maternity leave affect mothers employment and infant health?” National Bureau of Economic Research Summer Institute, Cambridge MA, August 2004

**UPDATED APRIL 30, 2004 (1 new workshop/talk).**

**UPDATED JULY 30, 2004 (2 new conference presentations).**

**UPDATED APRIL 30, 2006 (project suspended while paper undergoes journal submission)**

**Project 71** – Sarah Munce, “The Role of Work Stress as a Mediating Variable in the Chronic Pain-Depression Relationship”, CCHS 1.1.

- **Theses and Dissertations:** Master’s thesis (University of Toronto, IMS) (June, 2005)

- **Conference presentations:** (poster & paper) Munce, SEP, Stewart, DE. Sex Differences in Depression and Chronic Pain Conditions in a National Epidemiological Study. Ontario Women’s Health Council, Ottawa, ON, April 2006.

- **Conference presentations:** (poster & paper) Stewart, D, Munce, S. Depression and Chronic Pain Conditions in Women. World Psychiatric Association International Congress, Madrid, Spain, April, 2006.

- **Conference presentations:** (poster & paper) Munce, SEP, Robertson, EK, Heinmaa, M, Stewart, DE, Katz, J, & Weller, I. The Role of Work Stress as a Moderating Variable in the Chronic Pain and Depression Association, The Sixth International Conference on Occupational Stress & Health, American Psychological Association, Miami, Florida, March 2006.

- **Other academic activity related to RDC usage:** (e.g., appointments) AWCBC Public Forum “Top Three” Presenter, University Health Network-Eli Lilly Women’s Health Fellowship

**UPDATED APRIL 30, 2006 (2 articles, 1 thesis, 6 conference presentations, 1 other activity – honour)**

**Project 72** – Randle Hart, “Neighbourhood effects on alcohol and tobacco use among immigrant populations in Toronto”, CCHS 1.1, HSAS.

Contract expiry date: Sept 24/03.
Project 73 (03-shh-uto-0301) – Esme Fuller-Thomson, “Factors that Facilitate Canadian Women’s Use of Preventive Health Care Services: An application of Andersen’s Behavioural Framework”, NPHS. This project is in process and has no current output. Data has been vetted, drafting of articles are underway.
Contract expiry date: October 31, 2007
NO FURTHER UPDATE, APRIL 30, 2006
NO FURTHER UPDATE, APRIL 30, 2007

Contract expiry date: Oct 31/04.

Project 75 – Scott Walsworth, “Multinational Companies and New Economy in Canada”, WES.
Contract expiry date: July 31/04.

UPDATED APRIL 30, 2006 (5 conference presentations, 3 media coverage)
UPDATED APRIL 30, 2007 (1 book, 1 book chapter, 3 conference presentations, 26 media coverage)

Project 115 – Leah Steele, “Understanding Socio-economic Disparities in Ambulatory Service Use in Canada and Ontario: Data Path Analysis”. CCHS 1.2.
Contract expiry date: September 30/05.
Project 116 – Yee Fei Chia, “An Economic Analysis of the Effects of Maternal Employment on Childhood Obesity in Canada”. NLSCY.
Contract expiry date: September 30/07.

UPDATED FEBRUARY 18, 2005 (2 talk/workshops)
(Note from Yee Fei: My project at the RDC is part of my work on my PhD. thesis which is currently in progress. The (tentative) working title of my thesis is “An economic analysis of childhood obesity in Canada”.)

UPDATED APRIL 30, 2006 (1 conference presentation)

Project 117 – Anil Verma, “The Career Progression of Immigrants Women, and Visible Minorities in Canada Labour Market”. SLID.
Contract expiry date: July 31/05.

Project 118 – Reza Nakhaie, “Social Capital and Social Outcomes”. CCHS1.1; GSS 10, 11, 12, 13, 14, 15; NSGVP; SHS; YITS; SLID; NLSCY; EDS.
Contract expiry date: December 31/06.

Project 119 – Byron Lee, “The Returns to Education for Students based upon their Graduation Times”. NGS.
Contract expiry date: September 30/06.

Project 120 – Richard Gilbert, “Transportation and Body Weight in Children”. NLSCY.
Contract expiry date: April 30/05.

Project 121 – Karen Urbanoski, “Concurrent Substance Use and Mental Disorders in Canada: Prevalence and Impact on Service Use”. CCHS 1.2. Funded by CIHR.
Contract expiry date: July 31/05. This project is complete.
- Conference presentations: (poster & paper) Urbanoski, K. Comorbidity and use of mental health care services. 31st Annual Harvey Stancer Research Day, Department of Psychiatry, University of Toronto, Toronto ON, June 16, 2005. (Oral presentation).
- Conference presentations: (poster & paper) Urbanoski, K., Rush, B., Wild, T.C., Somers, J., Kimberley, D., & Bassani, D. Mental health service use and need among Canadians with mental illness and substance use...

- **Workshops, talks**: Rush, B. Integration of Mental Health, Substance Abuse and Primary Care Services – North Shore Vancouver, Kelowna and the Yukon Territory. National Primary Care Transition Fund Project, Mental Health Evaluation and Community Consultation Unit (Mheccu), University of British Columbia, 2005 – 2006.

- **Workshops, talks**: Rush, B.R. Three part training workshop on concurrent substance use and mental disorders: (1) CD: Why this is so important? (2) System-level challenges and solutions (3) Screening for CD: Rationale, challenges and solutions. Presented at the 2nd Annual Training Institute on Addictions, co-sponsored by the Addictions research centre and the Canadian Centre on Substance Abuse, Montague, P.E.I. July 13-16, 2004.

**UPDATED APRIL 30, 2006** (4 articles, 5 conference presentations, 4 workshops, 1 media coverage)

**Project 122** – Gueorgui Kambouroff, “The Impact of an Aging Workforce on the Skill Distribution and Technology Adoption in Canada”. SLID.
Contract expiry date: April 30/06.

**Project 123** – Kevin Milligan, “The Effects of Subsidized Child Care on Economics Choices and Outcomes”. NLSCY.
Contract expiry date: April 30/08.

**Project 124** – Livianna Tossutti, “Familism, Religiosity, Social Capital in Canada's Majority and Minority Communities: A Multi-Level Analysis”. EDS.
Contract expiry date: June 30/06.

- **Other academic activity related to RDC usage**: (e.g., appointments) Article in non-refereed publication: Tossutti, Livianna S. (Summer 2005) ‘Newcomers, Minorities and Political Participation in Canada’. Canadian Issues/Thèmes Canadiens. Montreal: Association for Canadian Studies.

- **Use by government**: Professional Services Contract Elections Canada commissioned me to write a Concept Paper on Ethnocultural Communities, Minorities and Immigrants (January-May 2006). The paper reviews the literature on the voting patterns of minorities and immigrants in Canada and abroad, analyzes new data on their turnout patterns, and reviews the outreach initiatives of Canada, 13 subnational jurisdicitions and 11 states. Part of the paper is based on output from the EDS. This analysis is congruent with the original proposal to analyze the EDS, as set out in the SSHRC application. The objective of the Concept Paper is to
provide a research base for the agency’s strategic outreach initiatives in these communities. Some of the policy recommendations in the paper are based on the analysis of the EDS (all disclaimers releasing Statistics Canada from responsibility for the policy advice were included in the paper). At the moment, the paper is confidential and for internal use only.

**UPDATED APRIL 30, 2006 (2 articles, 4 conference presentations, 1 other activity, 1 policy use by government)**

**Project 125** – Silvia Bernardini, “The Unique Influence of Older Sibling’s Aggression on a Change in Younger Sibling’s Aggression Over Time”. NLSCY.
- **Theses and Dissertations**: Silvia Bernardini 2004 (Ph D): The unique independent influence of older siblings’ aggression in younger children. University of Toronto (Jenny Jenkins, supervisor)

**UPDATED APRIL 30, 2007 (1 thesis)**

**Project 126** – Lisa Kaida, “Employment Patterns of Foreign Trained Engineers in Canada”. LSIC.
- **Refereed article**: Kaida, L. Untangling Credential Recognition Barriers and Language Barriers: Labour Market Experience of Foreign-Trained Engineers in Canada. (under review)

**UPDATED APRIL 30, 2006 (2 conference presentations)**
**UPDATED APRIL 30, 2007 (1 article)**

**Project 127** – Laurie Corna, “Childhood Trauma and Psychological Well-being in Older Adults”. NPHS.
- **Contract expiry date**: October 31/05.

**Project 128** – Lana Stermac, “Academic Achievement and Access to Higher Education Among Recent Immigrant and Refugee Youth”. YITS.
- **Contract expiry date**: May 31/06.

**Project 129** – William Magee, “Differences Among Immigrants' Group in Mental Health and Substance Use: Do Group Differences Match National Differences?”. CCHS 1.1 CCHS 1.2.
- **Contract expiry date**: October 31/06. This project is in process. **Under the terms of our contract with the Health Statistics Division, we provide regular updates of the reports and articles produced from the Statistics Canada surveys.**

---

**UPDATED FEBRUARY 18, 2005** (1 refereed article, 1 talk)

**UPDATED APRIL 30, 2006** (1 book chapter, 2 new articles, 8 conference presentations, 2 media coverage)

**Project 131** – Cameron Mustard, “Non-standard and Contingent Work Experiences and their Impact on Health”. NPHS, SLID, WES.

Contract expiry date: October 31/06. This project is in process.

UPDATED FEBRUARY 18, 2005 (1 book chapter, 4 refereed articles, 2 conference presentations)
UPDATED APRIL 30, 2006 (1 new book chapter, 2 new articles, 2 working papers, 1 thesis, 10 new conference presentations)
Project 132 – Cameron Mustard, “Functional Impairment, Disability and the Use of Health Services among Labour Force Participants”. NPHS, SLID, CCHS 1.1, HALS PALS. Contract expiry date: October 31/06. This project is in process and has no current output.

NO FURTHER UPDATE FEBRUARY 18, 2005

Project 133 – Cameron Mustard, “Social and Economic Consequences of mental Health Problems in Canada, using CCHS”. NPHS, CCHS 1.1 CCHS 1.2. Contract expiry date: October 31/06. This project is in process.

UPDATED FEBRUARY 18, 2005 (1 refereed article)

UPDATED APRIL 30, 2006 (5 new articles, 3 conference presentations)

Project 134 – Cameron Mustard, “Work Related Determinants of Health Among Young Canadians, Using NLSCY, CCHS, NPHS, SLID, WES, and YITS”. NLSCY, NPHS, SLID, WES, YITS, CCHS 1.1. Contract expiry date: October 31/06. This project is in process.

NO FURTHER UPDATE FEBRUARY 18, 2005
UPDATED APRIL 30, 2006 (5 articles, 2 conference presentations, 1 workshop, 1 other activity)

Project 135 – Adonis Yatchew, “Household Gasoline Demand in Canada”. NPVUS.
Contract expiry date: July 31, 2006. This project has not begun and has no current output.

Project 136 – Paul Anisef, “?” EDS.
Contract expiry date: December 31/07.

Project 137 – Nancy Cohen, “A Longitudinal Study of Children Enrolled in Early Intervention and Prevention: A National Perspective”. NLSCY.

Contract expiry date: December 31/06.

Project 139 – Miana Plesca, “What are the determinants of Training in Canada and How Well do We Measure Returns?”. AETS.

Project 140 – Dave Haans, “Alcohol and Drug Use Among Canadian Adolescents, 2000/2001”. NLSCY.
Contract expiry date: January 30/06.

Project 141 – Ayal Schaffer, “Gender Differences in Disability and Psychological Well-being among Individuals with Bipolar Disorder”. CCHS 1.2.
Contract expiry date: October 31, 2006. This project is in process.
  - Conference presentations: (poster & paper) Schaffer A, Cairney J, Cheung A, Veldhuizen S, Levitt A. Gender Differences in Service Utilization and Treatment for Bipolar Disorder. 6th International Conference on Bipolar Disorder, June 2005, Pittsburgh, United States
  - Other academic activity related to RDC usage: (e.g., appointments) Received an Ontario Mental Health Foundation New Investigator Fellowship to continue population health research

UPDATED APRIL 30, 2006 (2 articles, 3 conference presentations, 1 other activity)

Contract expiry date: June 30/06.

Project 143 – Amber Bielecky (PI), Dr. Cameron Mustard and Dr. William Gnam, “The Higher Prevalence of Major Depressive Disorder Observed in Lower Socioeconomic Status Groups: A Result of Incidence, Duration or Recurrence?”. CCHS 1.2.
Contract expiry date: January 31/07, extended to January 31, 2008. This project is in process.

**NO FURTHER UPDATE FEBRUARY 18, 2005**

**UPDATED APRIL 30, 2006** (2 conference presentations)

**NO FURTHER UPDATE APRIL 30, 2007**

**Project 144** – Graham Bean, “Risk Factors Associated with Binge Eating and Purging in 12 and 13 Year Old Girls”. NLSCY.

  - Contract expiry date: January 31/06.

    - **Theses and Dissertations**: Graham Bean 2005 (Ph D): Risk factors for binge-eating and purging in 12 and 13 year old girls. University of Toronto

    **UPDATED APRIL 30, 2007** (1 thesis)

**Project 145** – Robert Mann, “?”. PI has not started project yet.

  - Contract expiry date: January 31/07.

    - **Conference presentations**: (poster & paper) Chan, Winnie P.C. “School Choice and Student Achievement: Evidence from a Major Education Reform in Ontario.” Canadian Economic Association Meetings, Montreal Quebec, May 2006. A set of preliminary regression results from the project was incorporated into this conference presentation.

    **UPDATED APRIL 30, 2006** (1 conference presentation)

**Project 147** – Morley Gunderson, “Determinants of Retiring Due to Mandatory Retirement”. GSS 16. Funding from HRSDC-IC-SSHRC.

  - Contract expiry date: April 31/06. This project is complete.

    - **Workshops, talks**: “The Costs and Benefits of Aging and Retirement to Firms”. Presentation made at the workshop on “The Labour Market and Skills Implications of Population Aging in Canada” January 27th, 2006, at the Outaouais Room of the Conference Centre in Phase IV, Place du Portage, Gatineau, Quebec.

    - **Report to Governments**: COSTS AND BENEFITS OF WORKFORCE AGING AND RETIREMENT TO FIRMS (a report presented to HRSDC, June 2005).

    - **Use by Government**: Used by Human Resources Skills Development Canada

    - **Other activity**: This study was used as the background information for a panel (Expert Panel on Older Workers), a roundtable (Experts Roundtable on Older Workers, Commission in Montreal, May 3/07), a report (“Incentive Effects of Occupational Pension Plans” for the Ontario Pension Commission), and a chapter (“Mandatory Retirement: Not as Simple as it Seems,” In Times Up: Mandatory Retirement in Canada, Edited by T. Gillen, T. Klassen and D. MacGregor. Lorimer Press, 2005, pp. 139-160, with Doug Hyatt). It was also used as a springboard for another paper “Preferred Retirement Age and Retiring Due to Mandatory Retirement: Inter-temporal Comparisons Using The 1994 and 2004 GSS.” By Rafael Gomez (Department of Economics, Glendon College, York University; Department of Management, London School of Economics), and Morley Gunderson (CIBC Chair of Youth Employment, Centre for Industrial Relations and Human Resources, and Department of Economics, University of Toronto).

    **NO FURTHER UPDATE FEBRUARY 18, 2005**

    (Suggestion from Morley: Your outputs do not list a report as the forum. We envisage writing a report for Social Development Canada on the project. How would we list it? In the future you may want to add Reports/ Monographs to the research accomplishments section.)

    **UPDATED APRIL 30, 2006** (1 workshop, 1 report to government, 1 use by government)

    **UPDATED APRIL 30, 2007** (5 background material use)

**Project 148** – John Cairney, “Mental Health Care Use Among Single and Married Mothers”. CCHS 1.2.
Project 149 – Sarah Dryden-Peterson, “Canada as Host to the World: Building and Sustaining Relationships Between Newcomers and Long-Time Residents”. LSIC.

Funding: John Willett, Weatherhead Center for International Affairs, Harvard Graduate School of Education

Contract expiry date: July 31, 2006, extended to February 28, 2007. This project is in process.

- Refereed articles: (under review) Social Networks and the Hidden Job Market: The Role of Bridging Social Capital in the Integration of Highly-Skilled Newcomers in Canada

</tbody>
</table>

1. Indirect cost Director Buy-Out Time is not known at the time of writing this report (under negotiation).
2. Indirect cost Computer Depreciation is cost of equip ($300K) divided by an estimate of 5 years of use, 300/5 = $60K.
3. Indirect cost of Sec/Adm time is the office space at Inst for Life Course & Aging where adm staff office is located (35% of $12000).
4. Arts & Science contribution to Year Seven is based on the amount allocated in prior years for Academic Director’s salary and stipend ($10K). Actual contribution is under negotiation at the time of writing this report.
